

SMALLBORE DIVISION .22F Class

October Match

Our make-up match for October had a decent crowd although I know of several regular shooters who were in deer camp for the weekend. Weather was nearly perfect except for a bit of fog early. The scores reflected the minimal wind today.

Target rifle master class:

1st place: Don Faulkenberry.....599-41X

2nd place: Kelly McNitt.....595-42X

3rd place: Ben Bural.....595-35X

Target rifle expert class:

Tommy Sims.....580-20X

Tommy Sims Jr.....558-12X

Open rifle master class:

1st place: Mark Walker.....599-50X

2nd place: Kelly McNitt.....597-48X

3rd place: Don Faulkenberry.....597-37X

Thanks to all the shooters who have supported this challenging match for several years.

The season is officially over for 2025 however most of the shooters have requested having a match over the winter, weather cooperating. We came up with the following: Match on the SECOND SATURDAY of the month with 2 important changes. Match will start at 010:00 IF the weather report calls for a temperature of 45 degrees or higher at the same 010:00. As usual we are shooting on the Smallbore/Airgun range on the east side of the club property, enter at the cowboy gate and bear left. This simple/challenging game works like this: 22LR rifles shot at 100 yards for score. Single feeding of ammunition or single load magazines.

Bipods and machine rests allowed on the front of the rifle and sandbags on the rear. If you have an accurate rifle bring it out and see how good it and you can be in competition. If you are curious we have club rifles set up ready to play; come give it a try you might get hooked!
