

2025 Across the Course (XTC) Practice Days and Match Schedule

Dedicated XTC practices are generally scheduled for each Friday morning from 7:00 to 12:00 the weekend of the monthly XTC match. Practice is also scheduled during months without a monthly XTC match. Practice will be focused on the 200-300 yard lines but may include the 600 yard line at the discretion of the OKCGC practice organizer.

All practice will be completed and the range be available for club use NLT 12:00. Practice will NOT be conducted unless an OKCGC member is present for the duration of practice. In an effort to promote the sport and in partnership with other Oklahoma Gun Clubs, practice is open to all XTC shooters. OKCGC membership is not required.

The senior OKCGC member present will act as the Range Officer and will be responsible for all range operations.
