Oklahoma City Gun Club

2027 Membership Guide

NRA GUN SAFETY RULES

At the NRA, firearm education and safety is paramount - that's why we offer a variety of programs and services to promote the safe handling, use and storage of firearms. Whether you're a parent in search of information about firearm safety in the home, a first-time gun owner, or an old pro looking to brush up on your firearm handling skills, the NRA is here to keep you and your family safe. Explore NRA's fundamental rules of gun safety, as well as information how to safely store a gun and good cleaning practices.

The fundamental NRA rules for safe gun handling are:

When using or storing a gun, always follow these additional NRA rules:

- Know your target and what is beyond.
- Know how to use the gun safely.
- Be sure the gun is safe to operate.
- Use only the correct ammunition for your gun.
- Wear eye and ear protection as appropriate.
- Never use alcohol, over-the-counter drugs or prescription drugs before or while shooting.
- Store guns so they are not accessible to unauthorized persons.
- Additional Safety Precautions.
- Cleaning.

Oklahoma City Gun Club
PO Box 32043
Edmond, OK 73003

Greetings Members:

It is my pleasure to welcome you as a member to the Oklahoma City Gun Club. Membership in the Oklahoma City Gun Club provides you with the opportunity to participate in over 20 shooting disciplines. From Cowboy Action Shooting, Skeet/Trap to Archery, there is something for everyone. Whether you are a seasoned shooter or new to the sport, the various divisions are always willing and eager to introduce you to their type of shooting. Whether it is only one or all the shooting sports you are interested in, I encourage you to get active and get involved.

The Oklahoma City Gun Club has had the opportunity to host state, national, and international shooting competitions in many of our various divisions. We are a volunteer organization and depend primarily on our members to help host these events. It is the dedication and commitment of our members that makes each event a success. There are numerous opportunities to get involved and promote the shooting sports here at our club and I hope you take the time to get active and help preserve our shooting heritage.

Our mission at the Oklahoma City Gun Club is to provide a positive, educational and safe experience for anyone interested in firearms and the shooting sports along with building strong and safe communities throughout our surrounding areas.

Respectfully,

Suzi Rouse
President

WELCOME TO THE OKLAHOMA CITY GUN CLUB

Incorporated in 1958, the Oklahoma City Gun Club has long served the local community by providing supervised facilities for firearms shooting, giving instruction in the safe handling and proper care of firearms, teaching better marksmanship, and hosting numerous competitions that are open to the public. Over the past sixty years, the Oklahoma City Gun Club has grown to approximately 2,800 members and over 20 active shooting divisions, encompassing a broad range of the shooting disciplines. We work closely with many organizations and associations to support the shooting sports and to promote involvement, awareness, and safety.

The Oklahoma City Gun Club is located east of Edmond and about 3 miles north of Arcadia, OK. Although a private club, the Oklahoma City Gun Club regularly hosts events open to the public.

The Oklahoma City Gun Club is dedicated to providing the community with a safe, comprehensive environment to enjoy a broad range of shooting sports. Our goal is to increase the community's awareness of the proper care and handling of firearms, spread interest in an enthusiasm for each of the shooting disciplines, and to ensure the continuation of our shooting rights and heritage through involvement with programs for the community, including juniors, women, military, law enforcement, family, and friends.

The Oklahoma City Gun Club is affiliated with many organizations and hosts a number of regional and national events, drawing shooters from around the country. A few examples include:

- The Cowboy Action Division hosts The SASS National Championship with 700 shooters. From 47 states which is the largest Cowboy Action Shooting competition in the world. The division holds regular monthly matches.
- State and regional Handgun Silhouette Championships have been hosted here for the last 36 years. The club has also hosted an International championship all in the same year with 5 different countries involved, Australia, Brazil, Paraguay, Canada as well as the USA
- Action Pistol consistently hosts some of the largest monthly USPSA matches in the nation as well as Sectional Championships. We shoot USPSA, Steel Challenge, GSSF, Shoot Sig, ICORE, 3-Gun, Practical Rifle & Bowling Pin matches.
- For the last 20+ years, the Club has hosted the Women on Target Instructional Clinic, an NRA-sponsored program drawing women from the surrounding states - and a consistent sell-out.
- NRA Lever Action division holds a three-day Regional match each year in September, typically hosting 50 to 60 competitors, all shooting three disciplines of lever action rifle, as well as monthly matches the second Saturday, March to October.
- The High Power Division conducts State Championships, NRA Regionals, the NRA National Mid-Range Matches, and informal practice sessions using a contemporary electronic target system, shooting from 100 to 1,000 yards.

Although the Oklahoma City Gun Club is a private club, most events are open to the public. Competitions are open to the public and typically occur between April and October, especially on the weekends. In addition, the Oklahoma City Gun Club has many shooting divisions that hold matches year round.

IMPORTANT NOTES

- If you are on a range, hearing and eye protection is always mandatory for all participants and guests.
- Oklahoma City Gun Club badges are to be worn at all times.

MONTHLY NEWSLETTER

On the first of each month, the Oklahoma City Gun Club publishes The Primer, an electronic newsletter featuring upcoming events, match results, and general club updates. Contact information for all Division Chairpersons and Board Members is available at okcgunclub.com under the Division pages or the Divisions & Contacts page. Please read The Primer and visit the website each month for the latest club news. The Primer is available in both full-size print and mobile-friendly formats to better serve our increasingly mobile membership.

WANT TO HELP THE CLUB? Since our club requires an NRA membership for all members, you can join the NRA or renew your membership online using our link to ensure the Oklahoma City Gun Club will receive credit for the transaction. To join or renew, please click the NRA icon.

NOVEMBER 2026

High Plains Handgun Metallic Silhouette Nationals

By Jim Meyers, Match Director

The Silhouette Division hosted the High Plains Handgun Metallic Silhouette Nationals Sept 18 through shoot offs on Sept. 26. This was the 5th National event held at OKC Gun Club. We had 6 travelers from out of state who attended the match.

We had 35 shooters and a total of 243 entries. The weather was pretty warm for the first couple of days but then cooled off. We all appreciated that.

The shoot offs were on Saturday, Sept. 26 to break any ties of which there were several.

The winners of the major awards were:
- Top Gun, John Weaver from Texas
- Freedom Arms 3 Gun Revolver, John Weaver
- 3 Gun Standing, Scott Thompson from OKC
- 5 Gun Aggregate, Scott Thompson
- Anschutz SB Unlimited Award went to Rick Redd from Texas

In High Plains Handgun Metallic Silhouette there are several classes of handguns that are used, revolvers, semi auto, single shot, open sight, and scope classes. All competing in separate classes. Competitors shot a total of 46 perfect scores.

see High Plains Handgun, page 2

2026 Red Dirt Shootout: Another Successful Year in the Books

By Jamie Meyer, Red Dirt Shootout Match Director

The 2026 Red Dirt Shootout has wrapped up another outstanding year, celebrating the spirit of competition, generosity, and camaraderie that makes this event special to Oklahoma's shooting community. This match was held at the Action Pistol Range on October 17 and 18.

This year's match recorded 593 match entries from 168 individual shooters, including 42 female competitors. Through the generosity of sponsors and the support of the Glock Sport Shooting Foundation (GSSF), $20,715 in GSSF awards was distributed, along with 122 individual prizes, including 29-gun certificates.

The generosity extended well beyond those numbers. Eight firearms were awarded to volunteers, additional firearms were included in raffles and the Sport Shooting Association raffles, and competitors had opportunities to win cash through the popular side match. A substantial prize table, made possible by generous sponsors, added even more excitement to the event.

Federal Firearms returned as the title sponsor, continuing its valued support of the Red Dirt Shootout. Organizers also

see Red Dirt Shootout, page 2

FAMILY PAVILION

Located just inside the main entrance, the Family Pavilion can accommodate up to 60 people and is free for member's use for events, family reunions, training, etc. This facility is equipped with ADA-compliant heated restroom, picnic tables, folding tables/chairs, wash sink ,and other support items.

Club member Michael Tupps manages and handles the scheduling of the facility, he can be reached at mjtupps@gmail.com or 918-605-5696.

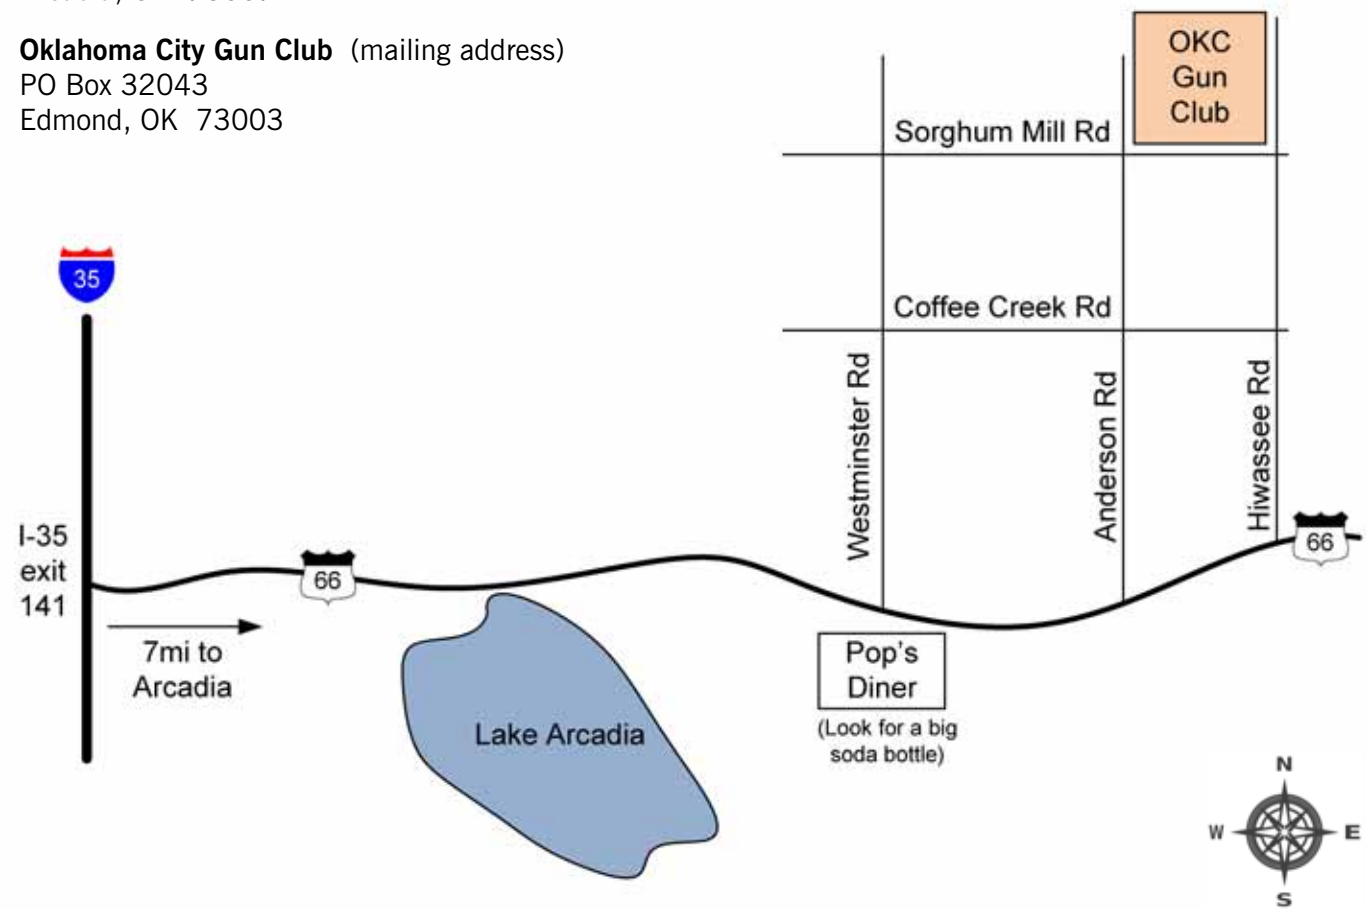

Oklahoma City Gun Club

Oklahoma City Gun Club (physical address)
12465 NE 234th Street
Arcadia, OK 73007

Oklahoma City Gun Club (mailing address)
PO Box 32043
Edmond, OK 73003

The Range is located north of the town of Arcadia, east of Edmond. From I-35, take Exit 141, which is the old route 66 eastbound. Arcadia is approximately 7 miles.

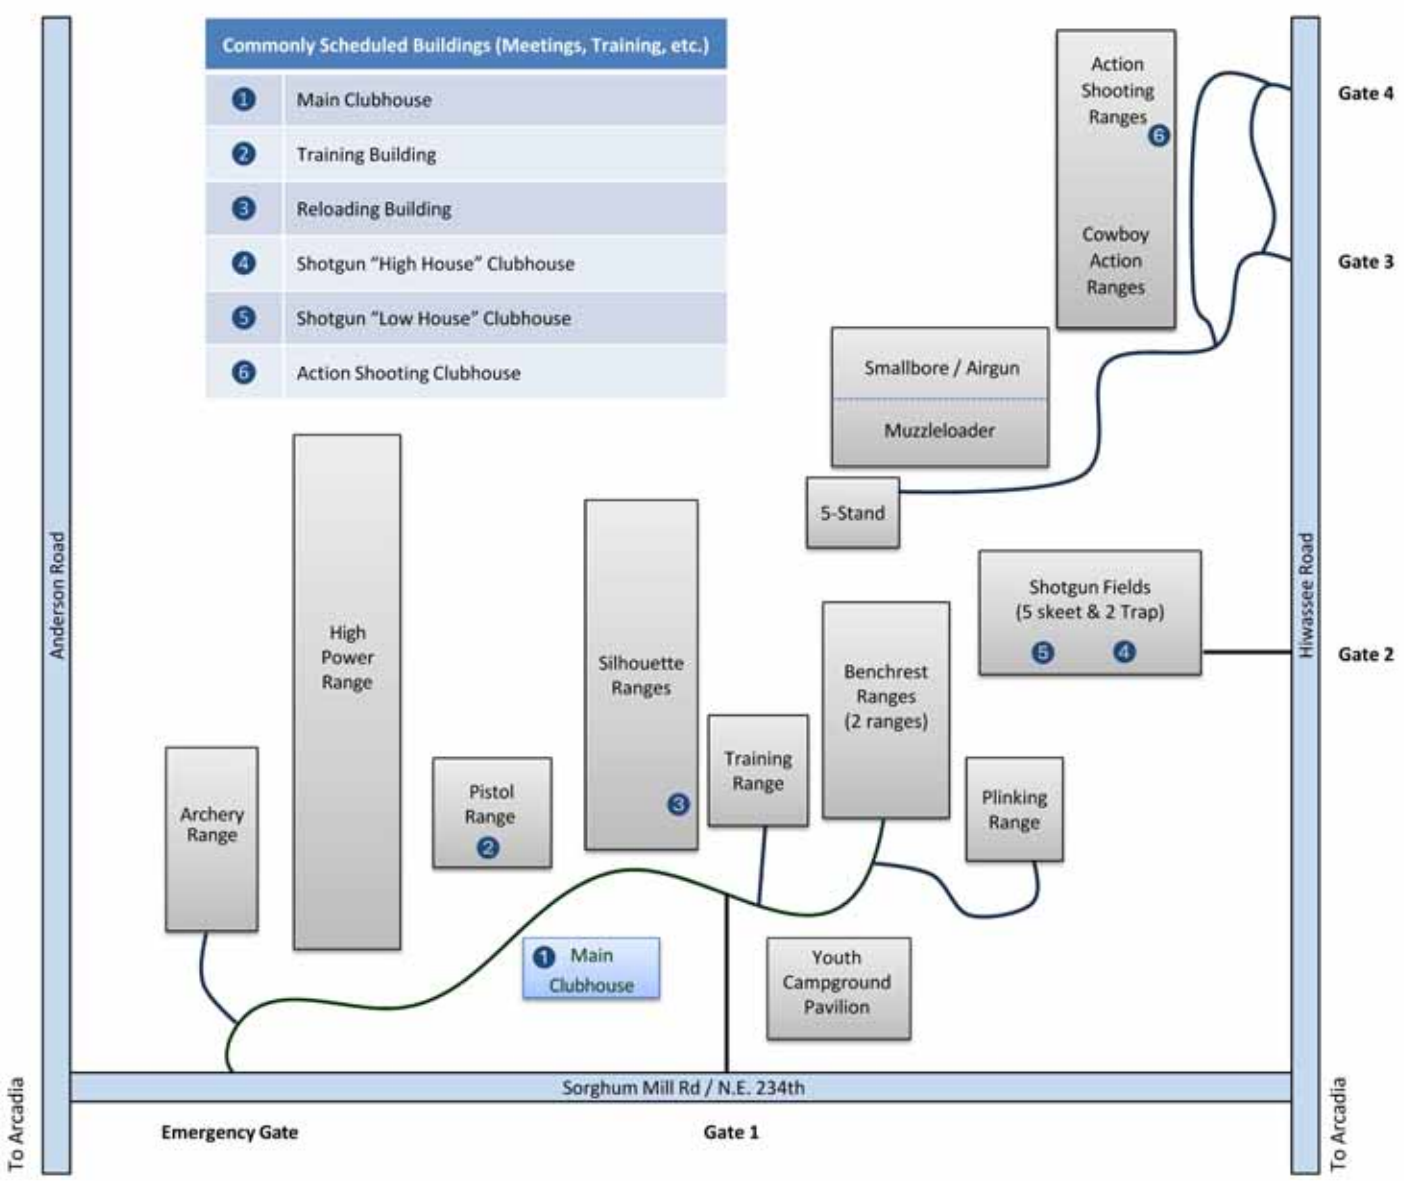

Just past the middle of the town is a left turn for Anderson Road. You may also continue further east beyond Arcadia for another mile to Hiwassee Road and turn left. Both roads work; the difference is more a matter of which entrance to the Club you are looking for. Action Pistol, Cowboy, Blackpowder, and Shotgun are closest via Hiwassee. The main club entrance and other ranges are closest to the Anderson Road entrance.

In either case, proceed northbound for approximately 3 miles until you arrive at Sorghum Mill Road (also marked as NE 234th Street). Then:

- From Anderson Road, turn right and look for the main entrance to the Gun Club about 1/2 mile east on your left.
- From Hiwassee, to reach the main club entrance, turn left onto Sorghum Mill/234th St and look for the main entrance about 1/2 mile on your right.
- For the entrance to Shotgun, Action Pistol, Cowboy Action and Black Powder ranges which are all accessed from Hiwassee, continue beyond the Sorghum Mill/234th Street turnoff and continue northbound. The shotgun area is about 3/10th of a mile on your left, and the Action Pistol, Cowboy, and Black Powder ranges are about 6/10th of a mile on the left.
- NOTE: There is now an additional entrance to the Action Pistol range about 100 yards further north, which is what we use for all IPSC, ICORE, Steel Challenge, and 3-Gun events.

MEMBERSHIP DUES AND WORK DAYS

Membership dues the first year are $334.40 ($229.90 annual dues plus a $104.50 initiation fee). Deadline for dues to be paid is December 31. New members will begin as Associate members. Dues will depend on whether you complete a Work Day during the year. A Work Day can be anything from helping with a match on one of the ranges to cutting brush and mowing. The Gun Club has several scheduled work days during the year and the various Divisions schedule workdays for just their range. You are responsible for making arrangements and completing your workday obligation. Gun Club members receive an $80.00 credit each year by completing a Work Day.

With current individual membership, Gun Club members are allowed to invite immediate family to participate with them while on the shooting range. Participation requires no additional fee. Family members must be joined by a current Gun Club member and must shoot from the same firing point.

For all membership correspondence use okcgcmembership@gmail.com

INITIAL DUES FOR NEW MEMBERS

- First Years Dues $229.90
- Initiation Fee $104.50
- **TOTAL First Years Dues $334.40**

MEMBER DUES

- Associate Members Dues $229.90
- Voting Members Dues $219.45
- Silver and Spouse $26.13
- Credit for Work Day $80.00 (one per year)

NET DUES AFTER WORK DAY CREDIT

- Associate Member $149.90
- Voting member $139.45

DEADLINE FOR DUES TO BE PAID

December 31 - Dues received after December 31 will be processed as soon as possible but may not be completed by February 1 the following year.

Membership Classifications: There are four (4) classes of membership: Associate, Voting, Silver, and Spouse. Badges include:

***1. White**: Club Official* ***2. Green**: 1st Year Member* ***3. Red**: Associate, Silver, and Spouse* ***4. Blue**: Voting Member*

VOTING MEMBER

The Board of Directors implemented revised guidelines (August 2016) as they pertain to new requests to become a Voting Member. The requirements are set out below:

1. Must be a member in good standing for at least three (3) years.
2. Pay a non-refundable fee of $100.00 upon acceptance.
3. Write a letter to the Board outlining past contributions to the club and future plans and goals.
4. Provide a written endorsement or sponsorship from a club official (board member or division chairman).
5. Appear before the Board if requested to do so.

Our goal is to encourage participation in the Oklahoma City Gun Club (OKCGC) by making a concentrated effort to grant voting rights to those who are truly invested in the gun club. We need Voting Members who are willing to give back to the club and invest their time and energies into making the OKCGC the best it can be. We are an all-volunteer organization and it takes dedicated individuals who are willing to step up and give back.

Written requests for becoming a Voting member can either be emailed to: president@okcgunclub.org or mailed to: OKCGC, PO Box 32043, Edmond, OK 73003. Requests for Voting Membership will be considered periodically throughout the year. In addition, current Voting Members will be expected to vote in our yearly elections. Any Voting members who do not vote in two consecutive elections will be reduced to Associate membership.

GATE COMBINATION

The gate will be changed each year on February 1. Dues must be received by December 31 in order to receive your new badge and gate combination by February 1 each year.

WORK DAYS

Work Days are a great opportunity to volunteer and learn more about each Gun Club Division. If you did a workday and have not been credited for it, do one of two things:

1. Mail in a **COPY** of your signed workday card with your check.
2. Contact the person you did the workday for and ask them to confirm with Carey Pribil by **EMAIL** that you have a workday.
3. Work Day cards must be turned in to the Gun Club by December 1 of each year in order to receive your $80.00 membership dues credit.

NRA MEMBERSHIP MUST BE MAINTAINED TO BE A MEMBER OF OKC GUN CLUB

GENERAL RULES OF CONDUCT *Adopted February 1971, Revised November 2025*

These rules supplement the standard NRA Safety Rules that cover safety with firearms. Additional rules pertaining to each specific range will supplement these and the standard NRA rules.

1. This range and associated facilities are for the use of OKLAHOMA CITY GUN CLUB members and their guests only. Members must wear their membership badges at all times while at the range. **If you lose your membership badge, request a replacement by contacting membership@okcgunclub.org.**

   To deter non-club members from entering through an open gate and using the club at their leisure, the board has posted "no trespassing" signs at all entrances, a requirement for the prosecution of trespassers.

   Please offer gentle reminders to your clubmates to wear their badges prominently, and don't be reluctant to ask a stranger at the club to see his or her badge if not being worn. While we welcome non-members to participate in many of our matches and events, they must remain in the area of the activity while on our property. Non-members are not familiar with our rules and could pose a safety or security risk.

   If anyone not wearing a badge offers any resistance when confronted, discretely get a picture of their license plate, and forward the picture, with time, place and other pertinent information to any board member (see page 1). Non-compliant members will have the opportunity to explain their actions at a board meeting, and non-members will be contacted by police.

   Thank you for helping make the OKLAHOMA CITY GUN CLUB a safer place for our members and communities.
2. It is the responsibility of the gun owner to stay up-to-date on the latest safety bulletins, recalls and other information pertaining to the firearms and ammunition they bring to the Oklahoma City Gun Club for use and competition.
3. It is the responsibility of the gun owner to ensure that all firearms and ammunition used at the Oklahoma City Gun Club are in good working condition and are safe to use.
4. If there exists doubt about the safety of any firearm or ammunition, the member/user should refrain from using that firearm or ammunition at the Club until a determination is made by the manufacturer, a competent gunsmith or other professional as to the safety of that firearm or ammunition.
5. Each person shooting on these ranges must familiarize themselves with NRA Safety Rules, these General Rules, and the specific rules posted at each range.
6. **GUEST POLICY**
   - **a.** Members may bring not more than two (2) guests to shoot at the range at any one time, except for members of his immediate family.
   - **b.** A guest may not shoot on the range more than five (5) times per calendar year. Guests under the age of 18 are exempt from this rule.
   - **c.** Guests must shoot from the same bench or firing point as their host.
   - **d.** Guests must obey the rules of the Club, and their safe and courteous conduct is the responsibility of the host member.
   - **e.** Guest must be accompanied by their host at all times.

GENERAL RULES OF CONDUCT, continued

7. Gates are to be kept closed and locked at all times except during scheduled shooting events. Lock combinations will not be divulged to non-members. All gates have the same combination as well as the bathrooms. The Gun Club is member only but there are a lot of competition shoots open to non-members. If a lock is not there then a chairman of a competition has it with them.
8. When two or more persons are firing on any common firing line, one must act as the Range Safety Officer. Each individual is responsible for the safe handling of his firearms.
9. Each range is to be used only for the purpose for which it is constructed.
   - **a.** All plinking shall be conducted at the Plinking Range. (NO .22 cal CENTER FIRE!)
   - **b.** All shots fired on any range must impact the earth backstop.
   - **c.** During formal matches, the affected ranges are reserved.
10. No guest under the age of eighteen (18) may shoot on any club range unless accompanied by an adult member who is present on the firing line.
11. Each member is responsible for acquainting himself/herself with the location of all Club ranges and danger zones. You must familiarize your guests with these locations. Do not wander from established range, parking, and road area. No one is allowed off the beaten path. There is no hunting or hiking allowed.
12. All motor vehicles will be operated only on the Club roads and shall be parked only in designated parking areas.
13. All members shall police their firing points and target areas and deposit trash in the trash barrels. Please leave the range in better condition than you found it.
14. In the interest of safety, NO HUNTING is allowed on Club property.
15. Violation of any Club rules, irresponsible behavior, or destruction of any OKLAHOMA CITY GUN CLUB property could result in disciplinary action and possible expulsion from the OKLAHOMA CITY GUN CLUB.
16. There will be **no firing of automatic firearms** on the ranges by anyone at any time. This prohibition includes devices that simulate automatic fire **including (but not limited to) bump-stocks, binary triggers, forced reset triggers, or any other such devices.**
17. **No .50 cal Browning Machine Gun or equivalent is allowed.**
18. All firing is to be conducted from published sunup to sundown. No firing by any kind of artificial light.
19. **NO ALCOHOL** on the firing line or while you are shooting.
20. Tracer rounds or any type of incendiary ammunition is strictly prohibited.
21. Fireworks are PROHIBITED on gun club property.
22. Paint Ball guns are PROHIBITED on gun club property.
23. EYE PROTECTION REQUIRED at all ranges at all times. Hearing protection highly recommended where applicable.
24. **Instructions by individuals on OKC Gun Club Property**
    Members will not conduct, contract for, or otherwise arrange for training or instruction on the OKCGC property for a fee or business purposes unless approved by the club's Training Division.
    - *A member of the gun club needs to sponsor the instructor/training.*
    - *The instructor will need to provide a copy of their current liability insurance naming the gun club as a certificate holder.*
    - *There is a $25 per day range use fee for any non-members attending.*
    - *The training will be open to gun club members and posted on the gun club calendar.*
    - *Once an instructor is approved by the Training Division, then the Training Division will work with the appropriate division to reserve ranges/facilities for them.*
    - *It is acceptable for a gun club division to conduct training or instruction without the training division oversight.*
25. Legally owned suppressors and short barreled rifles are welcome unless prohibited by the rules for a specific range. For example, only handguns are allowed on the pistol range.
26. ** Explosives, explosive targets, armor piercing, incendiary or tracer rounds are prohibited **

DIVISIONS: TABLE OF CONTENTS

PAGE

ACTION SHOOTING

Practical shooting including USPSA, ICORE, Steel Challenge, GSSF, Shoot Sig, Practical Rifle, 3-Gun and bowling pin matches. A blend of action, speed, and accuracy. 14

AIRGUN FIELD TARGET, AIRGUN XTREME FIELD TARGET, & AIRGUN N50 BENCHREST

Because of the increasing interest in air gun competition, we offer three different Air Gun events (Regular Field Target, XFT Field Target, and National 50 Benchrest) that take place at different OKC Gun Club ranges! 18

AIR RIFLE SILHOUETTE

Includes pistols with classes for open and scope sights. Pistol matches are sanctioned by HPHMS. A fun shooting sport for all ages. 19

ARCHERY

Over 50 targets on 5 Practice Ranges provide a wide variety of realistic 3D/hunting shots on mixed hardwood and open field areas. Numerous bag targets at distances from 10-100 yds. 3D Competitions are held throughout the spring and summer including the Oklahoma State ASA event held on our "Champions" 3D course. 20

BENCHREST

Numerous competitions throughout the year from Fellowship Matches, .22 Tactical, Iron Sight, and Military Bolt Action Rifle. 23

MILITARY BOLT ACTION

Part of the BENCHREST DIVISION, the Military Bolt Action competition is aimed at military firearms - Enfield, Mauser, Springfield, Mosin Nagant, etc. 25

BULLSEYE PISTOL

Pistol competition, multiple calibers, slow fire, timed fire, and rapid fire. Very rewarding and useful for helping other disciplines. 26

COWBOY ACTION

Cowboy Action shooting and old west traditions. Western dress, circa 1860-1900; single action revolver, lever action rifle, and a side by side or Model 87 or 97 shotgun. With an emphasis placed on speed and penalties for missed targets this truly is a sport that every skill level shooter can enjoy. A sport that is fun for the whole family. 28

HIGH POWER RIFLE

Across the Course and Prone matches. 200 - 1,000 yards. Dedicated to the promotion of high power rifle marksmanship. 30

HISTORIC 3-GUN

The era for Historic 3-Gun (H3G) is from 1900 through WWII, with a focus on the 1915 era, allowing uniforms/clothing, and more importantly firearms from the period. H3G is true to the 3-Gun concept with high round counts and movement using iconic firearms from the early 1900's. It is not a fitness sport, nor is it bullseye competition. If you like USPSA or Wild Bunch, you'll love Historic 3-Gun. 33

MUZZLELOADER

Muzzleloading is very easy to get into and not too costly to try. It's great if all you want to do is brush up on your hunting or shooting skills. 35

NRA ACTION PISTOL

NRA Action Pistol events consist of the same events that are held at the NRA National Action Pistol Championship called The Bianchi Cup. The events are the Moving Target, the Barricades, the Steel Plates, and the Practical. 37

DIVISIONS: TABLE OF CONTENTS

PAGE

NRA ARC

Focused on safe, practical use of the AR-15 for recreation, self-defense, hunting, and sport shooting, ARC offers opportunities for shooters of all experience levels, including rimfire AR and PCC competitors. For more information on this new division, visit www.okcgunclub.org/nra-arc-division.html

PLINKING

Informal range for all types of handgun - rimfire to center fire. 39

RELOADING

NRA certified reloading instructors will teach classes in metallic rifle and pistol reloading as well as shotshell reloading. These classes will be a combination of lecture and hands-on with students reloading several rounds of ammunition in class. 41

SHOTGUN

Skeet, Trap, and 5-Stand shooting with a variety of competitions and shooting programs, appealing to all levels of ability 42

SILHOUETTE

Highpower and rimfire rifles, black powder cartridge rifle, and handguns; metal targets representing game animals at varying distances. Also includes Air Gun Silhouette and Muzzleloader Silhouette. 46

AR STEEL PLATE CHALLENGE

Part of SILHOUETTE: this match is for members and guests to shoot their AR-15. Any caliber on the AR platform is legal, no magnum rifle calibers. 47

PISTOL

Part of SILHOUETTE: different types of matches with one to suit any member of the family. Matches vary according to pistol type and shooting position. 48

BLACK POWDER CARTRIDGE RIFLE

Part of SILHOUETTE: Black Powder Cartridge Rifle is traditional black powder rifles circa 1870-1900 used in Silhouette competition. 49

SMALLBORE

The Smallbore/Airgun Range holds several Rimfire and Airgun matches, also scheduled practice days. 50

TRAINING

Makes available many opportunities to educate both members and the public in both safety and responsibility in many different disciplines. 51

Ladies Pistol League meets monthly and is open to women of all experience levels.

WILD BUNCH

Wild Bunch Action Shooting competes with firearms typical of those used in the taming of the Old West just after the turn of the century. Wild Bunch uses 1911 semi-automatic pistols, pistol caliber lever action rifles, and any SASS legal shotgun. 54

WILDFIRE ABATEMENT

The Division is tasked to implement, evaluate and maintain proactive fire mitigation strategies, such as defensible space creation and vegetation management. 56

WOMEN

Introduction to various shooting disciplines in an informal format including Women on Target Fun Shoot, Cowboy Action , Shotgun, Bullseye, etc. 57

YOUTH

Program provides the opportunity for youth in our area to experience the fun and excitement of shooting sports; Trap and Skeet, and 4-H Shooting. 58

Location: Action Pistol Range see map on page 5

INTRODUCTION

The variety of matches within our division has expanded, offering at least one match every weekend of every month throughout the year, and sometimes two. New to action shooting? No problem. Many folks come to watch a match and listen in on our pre-match briefings; hearing and eye protection is required.

Though this is not the venue to learn how to operate your firearm, it is an excellent environment to improve your skill and comfort using your firearm under the pressure of time and competition. While competitors of varied skill categories and classifications shoot together, scores are ultimately sorted out by firearm divisions and shooter skill level. This allows shooters of all abilities to share experiences, shooting styles, and strategy.

While the specific rules, equipment configuration and shooter experience vary among the different matches, there is something for everyone. We always have at least a few first-time shooters at our matches so don't feel like you will be the only one; just let us know when you check in so we can give you some extra help. We provide a new competitor briefing before every match and will do everything we can to see that your experience is safe and enjoyable.

If you would like reminders about our division events, email ipsc.mail@okcgunclub.org and we will add you to the mailing list. Generally, we send out match reminders the Sunday or Monday beforehand, complete with a link to pre-register. While registering ahead of time is not mandatory, it helps us get the match underway in a timely manner.

For more information about our match formats and rules, visit the Action Shooting Division on our website. Always check the online calendar for last minute match updates, especially if there is any concern about weather on match day.

In addition to our regular monthly matches, we typically host several state and regional matches. Check our website and online calendar for details as they become available.

ACTION SHOOTING DIVISION, continued

REGULAR MATCHES

USPSA – 1st Saturday & Sunday of the month: *Note: the complete match may be shot on Saturday or Sunday; Shooters wishing to shoot both days may, as long as they shoot in different divisions. Basically, the one match offered twice.* "Run & Gun" Practical shooting that engages dynamic and challenging courses of fire, where speed, accuracy, and power are tested. Whether you're a seasoned shooter or new to the sport, USPSA offers a structured, exciting path to elevate your shooting skills in a supportive environment.

GSSF & Shoot Sig – 2nd Saturday of the month: Matches run concurrently on the second Saturday of the month. GSSF and Shoot SIG style matches are being held on alternating second Saturdays of the month through the year.

- GSSF style matches are set up and run like an outdoor Glock match and will have five divisions, Stock, Unlimited, Rimfire Pistol, Pocket and PCC. The major difference is you can shoot any centerfire pistol OR rimfire pistol you want, as this IS NOT a GSSF sanctioned event.
- Shoot SIG style matches are set up and run like an outdoor Shoot SIG match and will have six divisions: Sig Pistol Iron, Sig Pistol Optics, 365 Iron, 365 Optic, Sig PCC, and P322. The major difference is you can shoot any centerfire pistol, rimfire pistol, or PCC you want, as this IS NOT a Shoot SIG sanctioned event. We'll help you figure out which division best fits your equipment.

3-Gun – 2nd Saturday of every other month: A fast-growing segment of our sport is 3-Gun which is basically USPSA with handguns, rifle, and shotgun – sometimes all 3 on a given stage. 3-Gun matches involve a lot of equipment and ammunition. There are several equipment divisions. A wagon, range cart, or something of that sort is highly recommended.

Steel Challenge – 3rd Saturday of the month: Steel Challenge matches recognize many different pistol caliber equipment categories including .22rimfire divisions. Whether you come out and watch a match or 'jump right in' like most of us have, Steel Challenge is an exciting shooting discipline that combines speed and accuracy in a fun format that can be enjoyed by almost anyone at any level of experience. With all of the shooting done from within a 3-foot square box, simpler equipment requirements and recognition of .22 rimfire, Steel Challenge is an excellent way to get involved in the action shooting sports – especially for introducing our youth.

ICORE – 3rd Saturday of every other month: ICORE (International Confederation of Revolver Enthusiasts), is an "Action" shooting competition where the equipment and course design rules are specifically written for revolver shooters. Match format is much like USPSA competition. The principle differences are that the equipment is limited to revolvers of 32 magnum calibers or larger and that all courses of fire must be designed to be six rounds neutral.

Practical Rifle – 4th Saturday of the month: Interested in "run & gun" action with your rifle? This is for you. Essentially, USPSA match format and administration but rifle only and simpler scoring methods. Divisions include Rimfire, Light Carbines, Pistol Caliber Carbines (PCC), and Battle Rifle. This is meant to be safe, fast, fun, and very easy for anyone that has shot 3-Gun or USPSA to step right into, but we will do a shooter briefing before the match begins.

Bowling Pin – 5th Saturday of the month (where there is one): Test your mettle in a head-to-head tournament with cash prizes for 1st, 2nd, and 3rd place plus random cash prizes depending on the number of entries. Use the 1st round to warm-up round without fear of elimination. Subsequently, it is single elimination, but losers of the 2nd round may buy a mulligan before the 2nd round ends to continue to the 3rd round.

ACTION SHOOTING DIVISION, continued

Pairs of competitors will face off against one another in timed, 30-second bouts with unlimited round count. The first to knock all 5 bowling pins completely off their respective platform wins. Ties will be decided first by most pins knocked off, and second, by most pins knocked over. The divisions are handgun, rimfire and PCC/Race gun – something for everyone.

VOLUNTEERS NEEDED

Matches take a lot of work to set up and run. Help is always appreciated; if you can, arrive a little early and offer to help set-up, or stay a little afterward and help break down. During the matches competitors are expected to help. After the range is declared clear by the Range Officer, everyone should help pick up brass, tape targets, reset steel targets, etc. Just a little effort by everyone makes it go much smoother and everyone has a better time.

ACTION SHOOTING DIVISION, continued

ACTION SHOOTING RANGE RULES (NORTH 6 BAYS)

1. Read and obey range rules while using this range. You are responsible for knowing these rules! Contact club official at OKCGC_Action@OKCGunclub.org if clarification is needed or to report maintenance issues.
2. Safety is paramount in all activities conducted on this range.
   - **ALWAYS** keep firearm pointed in a safe direction
   - **ALWAYS** keep your finger off the trigger until you are ready to fire
   - **ALWAYS** keep your firearm unloaded until ready to use
3. When two or more people are utilizing a bay, one must act as Range Safety Officer.
4. NEVER handle Firearm while someone is downrange. Usage of empty chamber flags is highly encouraged.
5. All firearms shall be transported in a bag/case or with the muzzle straight up or straight down to and from the shooting bays. DO NOT POINT ANY FIREARMS AT ANYONE ON THE RANGE AT ANY TIME. The only place you may handle your firearm is while fully within the shooting bays or at one of the designated safe areas. ABSOLUTELY NO HANDLING OF FIREARMS IN THE PARKING LOT.
6. Do not load your firearm until you are fully within the confines of a shooting bay.
7. All shooting must be done from within the confines of a shooting bay.
8. All rounds must impact the earthen berms – no firing shall ever be directed toward the range floor.
9. Any person at any time is authorized to declare “Cease Fire” for an actual or anticipated safety issue. Upon “Cease Fire” all firing is to stop immediately.
10. All firearms must remain unloaded with actions open or holstered when not in use. Note: some competitive events may have additional more restrictive rules for transporting/carrying firearms. Contact a match official before removing any firearms from your vehicle (including open/concealed carry).
11. Explosives, explosive targets, armor piercing, incendiary or tracer rounds are prohibited on this range.
12. Handguns, rifles, and shotguns are permitted in these shooting bays. Please pick up hulls/brass.
13. Target stands are not to be removed from the shooting bays.
14. You may bring your own steel targets. Steel should be a minimum of 7 yards for handgun caliber firearms or shotguns. No bottleneck rifle cartridges (such as 223, 308, 30-06, 7.62x39, or any equivalent cartridge) or shotgun slugs on steel targets in these bays. Please note Cowboy bays to the south may have different rules for steel targets.
15. Eye and ear protection is **REQUIRED** when on or near this range.
16. This is your club and a volunteer-operated facility – please clean-up range after each use! Please take cardboard targets directly to the dumpster.

AIR GUN MATCHES

Because of the increasing interest in air gun competition, we offer three different Air Gun events that take place at different OKC Gun Club ranges!

REGULAR FIELD TARGET - LOCATION: ARCHERY RANGE

We shoot pellet guns from 10 to 55 yards. Using 12 and 20 FPE (foot pounds of energy). You shoot at different shapes plates with a Kill Zone hole. Hitting the KZ knocks over the target for a point!

Check out www.airgunnation.com/threads/aafta-offical-rules.561478 and get more information on rules and what it is all about. We have a great time with this discipline, it is a hoot!!!

XFT FIELD TARGET (XTREME FIELD TARGET) - LOCATION: SMALLBORE/AIRGUN RANGE

Shooting is simple to understand but a little challenging. It is very similar to the regular Field Target "Hunter Class". But with more POWER! It is a lot of FUN and a great bunch of shooters that want and will help in any way they can. What we shoot is PELLET guns from 20 to 100 yards. The targets are plates with kill zone holes, like Field Target. You must hit the kill zone to knock it over for a score. The caliber limit is .30 with no more than 100 FPE (foot pounds of energy).

N50 (NATIONAL 50) BENCHREST - LOCATION: SMALLBORE/AIRGUN RANGE

We shoot this at 50 yards with pellet guns, slugs and .22 Rimfire. We have concrete benches on the firing line that are very stable! Check out www.national50.org/rules for the rules and find out what it is all about!

MORE INFORMATION

REMINDER: ALWAYS check the online calendar for updates. You can also email us with any questions you might have. For more information contact airgunfield@okcgunclub.org. Also Pearl Stonebraker at daisymae1152@msn.com and Randy Rannberg at rrannberg@gmail.com.

AIR RIFLE SILHOUETTE DIVISION

Contact: Steve Gerot 816-315-0573 gerot@gmail.com

Website: www.OKCgunclub.org/airgun-div.html **always check the website for updates**

Location: Air Rifle-Silhouette Range see map on page 5
Air Pistol-Main Clubhouse see map on page 5

INTRODUCTION

Air Rifle Silhouette competition is a new discipline which started in June 2023, with nine monthly matches in 2024 which included a championship match in August. These monthly matches are shot on the silhouette range on the 3rd Saturday of each month, March through November.

Small-bore guns, .22-.25 & .30 caliber are shot on steel silhouette targets from 25 to 100 yards. Big-bore guns, .308-.357-.45 & .50 caliber are shot from 50 meters to 200 meters.

AIR Pistol Silhouette competition monthly matches are shot in the Main Clubhouse on the 2nd Tuesday of each month starting at 5:00 PM, year-round.

If you do not have an AIR pistol, we have guns you can shoot in the match before you decide to buy. Classes are set up for both open sight and scopes. The pistol area is sanctioned by HPHMS which sanctions our .22 rimfire and center fire pistols on the silhouette range.

All in all it is a fun shooting sport for all ages. After watching, I'm sure you will get involved too! In this sport you don't shoot holes in paper, you shoot at steel animals and when hit they fall over:

- chickens 10 yds
- pigs 12-1/2 yds
- turkeys 15 yds
- rams 18 yds

The targets are in steel cabinets with sand traps in the bottom. The shooter immediately sees something happen. Entry fee for juniors is only $1.00, $5.00 for adults. Juniors shoot free with an adult entry.

AIR GUN RIFLE FUN MATCHES

Air Gun Rifle Fun Matches are held every Monday morning at 8:00 AM inside the Main Clubhouse. We shoot .177 caliber rifles at paper targets at a distance of 51 feet off of bench rests. We offer two classes . . . production for the inexpensive guns and unlimited. The entry fee is just $5.00 and the three consecutive matches are usually over by 11:00 AM. Your gun will require a scope to shoot at the tiny targets and we can guarantee lots of fun, fellowship, and challenges with your shooting.

Come give it a try or just come out just to watch. You may contact Burton Ferrell, 405-842-9585, or Dave Johnson, 405-789-1368, for more information.

We just had our first championship match in 2024! *Field Target Silhouette competition is shot outdoors on the silhouette range on animal shaped rams, turkeys, pigs & chickens at varying distances, both small-bore as well as big-bore modern, high tech air rifles. Big-bore distances range from 50 meters to 500 meters (not a typo) Small-bore distances from 25 yards to 100 yards. We have monthly matches from March through November.*

Location: Archery Range see map on page 5

INTRODUCTION

The Archery Complex has been redesigned with input from OKC Gun Club members to invite all types of shooters from Novice to Expert. We encourage you and your entire family to come out and experience the available ranges. Whether you are a hunter, a competitive 3D shooter, a long-time target shooter, recreational shooter, or are new to the sport, the Archery Division has a range for you.

The Archery Division will be providing events for members and the public at certain times during the year.

RANGE 1: (Novice or Beginner Area), six lanes of shorter distance bag targets ranging from 10-15yards. Also available is a movable bag target for kids just getting started. In addition, there are four 3D standing targets. Restrooms, and a picnic area with refrigerator and cooking range under a covered pavilion, are available year-round making for a great family outing.

RANGE 2: (Multi-Purpose Field Tip/Broadhead Shooting), includes four covered shooting bays with 16 lanes, bow hangers, ground based arrow quivers, moveable tables, benches and chairs. The range offers Long-Range shooting at 50-100yd bag targets (Crossbow shooters are asked to shoot only long-range targets or are encouraged to bring their own), 12 Mid-Range 20-40yd bag targets, 3 Mid-Range Broadhead 20-40yds (Red Colored Stands/Block targets. 4 long range 3D targets (55-90yds), and a unique rolling moveable target for shooters to place as desired. In addition, a tower platform with 4 covered shooting bays provides a unique tree stand environment. The tower platform is also the home of the ATEUP Lounge, complete with tables, chairs, and a great view for relaxing after a good shoot.

RANGE 3: (3D Traditional Bow Shooters Only Practice Area), includes 6-8 3D targets at shooting distances from 10-30 yds.

RANGE 4: (The Gary England Memorial Range) 10-12 lanes of 3D walk-out targets with an assortment of targets standing at distances from 15-50 yds.

RANGE 5: (The Jim Yancy Memorial Range) 10-12 lanes 3D walk-out targets with an assortment of targets standing at distances from 15-50 yds.

Range 6: (The Champions Range) designed by our own OKC Gun Club Archery Match Directors and Archery

ARCHERY DIVISION, continued

Team, is a Tournament Only 3D 30 target walk-out course.

Youth Archery Try Before You Buy Program:
The Archery Division is now offering a new program to youth of gun club members. Youth bows may be checked out for 30 days, giving our young shooters the ability to try the sport of archery. Check outs are by appointment only.

Archery Safety:
Safety is our primary concern as we have taken steps to provide a safe shooting environment but always look to our shooters to demonstrate care when shooting. We ask that you make sure of your target as to what you are shooting and to know what is behind the target. Pay extra attention to signage, bow hangers, bench rest for bows, provided quivers, orange cones/flags indicating shooters are down range, and if needed "call-outs" to ensure no one is down range. Make sure that all children are behind the current shooters and are minding all rules and regulations. Benches, chairs, and tables are provided to be used for bow adjustments and sighting needs.

Equipment needed:

Shoot what you have (Traditional, Compound, Cross), as we welcome all types, styles, and levels of shooters. The Archery Division does not provide equipment, repair work, or instruction, but can make recommendations on how these services can be provided.

Events:

The Archery Division will be providing events for members and the public at certain times during the year. Events will be promoted via an email blast and the club calendar.

We always have our covered and lighted pavilion available to use which includes two picnic benches, outdoor grill, restrooms, and electricity.

Archery Range - Air Gun Range - RULES

1. **Read and obey range rules while using this range. You are responsible for knowing these rules! Contact club official at Archery@OKCGunclub.org if clarification is needed or to report maintenance issues**
2. **Make sure of the target you are shooting at and what is behind your target.**
3. **Do not shoot arrows across lanes.**
4. **Hang bows on bow hooks or benchrest prior to going down range. This lets others know someone is down range.**
5. **Field points only on all Bag and 3D (animal shaped) targets.**
6. **Broadhead arrows used only on RED targets.**
7. **Air guns may only be used on metal targets, never shoot bag or 3D targets.**
8. **When two or more people are utilizing a range, one must act as Range Safety Officer.**
9. **NEVER handle air gun or bow while someone is downrange. Before anyone goes down range the Range Safety Officer must declare "Cease Fire – Range is Closed" and all air rifles/crossbows MUST be unloaded (action open or de-cocked) and placed on a rack or hook. Range Safety Officer shall verify all persons have returned before declaring "Range is Open". Usage of empty chamber flags is highly encouraged in air guns.**
10. **Any person at any time is authorized to declare "Cease Fire" for an actual or anticipated safety issue. Upon "Cease Fire" all firing is to stop immediately.**
11. **Always carry air guns UNLOADED. Only load air guns when pointed down range. When not engaging targets muzzle must be pointed straight up or straight down.**
12. **No high-powered air rifles allowed. No more than 20 Foot Pounds of energy allowed.**
13. **During a match, all ranges are closed (except Range 1) until match is complete. Check Club Calendar for dates and times.**
14. **This is your club and a volunteer-operated facility– please clean-up range after each use!**

BENCHREST DIVISION

Contact: **David Tonne** 918-521-8572 dtonne01@msn.com

Paul Heckler 405-822-4325 paulh.mbr@gmail.com

Website: www.OKCgunclub.org/benchrest-division.html **always check the website for updates**

Location: Benchrest Range see map on page 5

INTRODUCTION

The Benchrest Range is open to all for independent free style use for members and guests except for scheduled matches and times that are reserved for specific uses such as the military (Guard and Reserves) and the Oklahoma City Police Department (Sniper Team) training to accomplish their Homeland Security commitment. The Benchrest Range distances include 25 yds, 50 yds, 100 yds, 150 yds, 200 yds, and 300 yds.

All scheduled matches are "open matches". Be sure to check the Gun Club Calendar, www.OKCgunclub.org, for dates and times. Be prepared to post your targets as soon as you arrive so you can go down range as soon as it opens. Bring a spotting scope to see your target so you do not slow down other shooters.

Rules for use of the range are posted at the range; be sure to review them. **NOTE: The Benchrest Range has posted a slug-only rule for shotguns! If you want to pattern your shotgun, there are facilities available at the Shotgun Range!**

Restrooms are located at the southeast corner of the scoring building. There is no reason to not bring the entire family to the range.

Benchrest opportunities for Gun Club members include:

- **Fellowship Match** which meets every Friday morning at 8:00 AM, April through November, weather permitting (100 yard scoped rim fire rifle match and a .22 rimfire rile competition, informal). Match Director is Lindell Canary, 405-250-0385, lcanary@cox.net.
- **Tactical .22 LR Match** meets every Friday morning following the Fellowship Match, April through November. Match Director is Lindell Canary, 405-250-0385, lcanary@cox.net.
- **Iron Sight Match** meets every Friday morning following the Fellowship Match, April through November. Match Director is Lindell Canary, 405-205-0385, lcanary@cox.net.
- **Military Bolt Action Rifle** (reference page 27) Meets the 1st Saturday of every month year 'round. First rounds downrange at 9:00 AM. Include period, issue, military center fire rifle competition; formal, sanctioned. Match director Paul Heckler; PaulH.MBR@gmail.com, 405-822-4325.

BENCHREST DIVISION, continued

BENCHREST RANGE RULES

1. Read and obey range rules while using this range. You are responsible for knowing these rules! Contact club official at Benchrest@OKCGunclub.com if clarification is needed or to report maintenance issues.
2. Safety is paramount in all activities conducted on this range.
   - **ALWAYS** Keep firearm pointed in a safe direction
   - **ALWAYS** keep your finger off the trigger until you are ready to fire
   - **ALWAYS** keep your firearm unloaded until ready to use
3. When two or more people are utilizing this range, one must act as Range Safety Officer.
4. NEVER handle Firearm while someone is downrange. Before anyone goes down range the Range Safety Officer must declare "Cease Fire – Range is Closed" and all firearms MUST be **unloaded (magazine removed and bolt/action open) and** removed from the shooting benches and placed into a gun rack. Range Safety Officer shall verify all persons have returned before declaring "Range is Open". **Usage of empty chamber flags is highly encouraged.**
5. All firearms shall be transported in a bag/case or with the muzzle straight up or straight down to and from the shooting bench or gun rack. DO NOT POINT ANY FIREARMS AT ANYONE ELSE ON THE RANGE AT ANY TIME. The only place you may handle your firearm is on the shooting bench while the firearm is pointed downrange.
6. Do not load your firearm until you are seated at the bench and the muzzle is pointed at the targets.
7. All shooting must be done from established firing line – No shooting forward of the benches except for approved and sanctioned events.
8. All rounds must impact the earthen berms – no firing shall ever be directed toward side berm, or the range floor.
9. Any person at any time is authorized to declare "Cease Fire" for an actual or anticipated safety issue. Upon "Cease Fire" all firing is to stop immediately.
10. All firearms must remain unloaded with actions open and reasonably visible when not in use.
11. Explosives, explosive targets, armor piercing, incendiary or tracer rounds are prohibited on this range.
12. Only shotguns firing slugs may be used on this range. If you need to pattern bird shot, please go to the shotgun range.
13. No makeshift targets are to be placed on the ground – no cans, bottles, etc.
14. Eye and ear protection is REQUIRED when on or near this range.
15. This is your club and a volunteer-operated facility – please clean-up range after each use!
16. Steel Targets: Only steel targets provided by the club will be shot on this range. No personal steel targets authorized.
17. Prone shooting at East Benchrest is permitted provided the following rules are followed:
    - Shooter sets up "Road Closed" sign, found at Bench 1, on the road entrance to the target line.
    - No entrance to the target line is permitted until all firearms are in the provided racks.
    - Prone shooter removes sign from road entrance after shooting and returns it to Bench 1.
    - All Range Rules are followed.

BENCHREST DIVISION - MILITARY BOLT ACTION RIFLE

Contact: **Paul Heckler**
405-822-4325
PaulH.MBR@Gmail.com

Website: www.military.okcgunclub.org/mb/main.html **always check the website for updates**

Location: Benchrest Range see map on page 5

INTRODUCTION

This is a very friendly competition that is done mainly for fun. The purpose of this match is to bring the older bolt-action military rifles out of storage and onto the range, providing competition and companionship of other shooters having similar interests.

The spirit is to provide such competition at a minimal cost, using unmodified military rifles to keep the costs as low as possible. The competition is very low-key.

Open to anyone wanting to shoot their military issue bolt-action rifle. First read the rules located on the Military Bolt Action Rifle website listed at the top of the page. If you have a rifle that is within the rules, bring it out and have a good time with us.

The competition is limited to bolt action, centerfire, “as-issued” or “stack” rifles; such as would have been issued to the average soldier of a recognized military organization. Special versions of these rifles, such as “sniper” or 22 caliber rimfire training rifles are not acceptable as they are special purpose weapons and not issued to the average soldier.

Even if you don't have a rifle, and are just interested, come on out and see what we are about!

We meet every month on the 1st Saturday at 9:00 AM year 'round, except during inclement weather. Always check the website for the most current information. For first time shooters; sign up by contacting Paul Heckler prior to a match date.

Some commonly used rifles:

- M96 Swedish Mauser
- Springfield 1903 and 03A3
- 91/30 Mosin Nagant
- M39 Finnish Mosin
- K31 Swiss
- 98K Mauser

MORE INFORMATION

Visit the website listed above, or contact Paul Heckler.

BULLSEYE PISTOL DIVISION

Contact: **Roger Kneeland**
405-512-2691

Website: https://www.okcgunclub.org/bullseye_pistol.html **always check the website for updates**
Location: Pistol Range see map on page 5

INTRODUCTION

Welcome to the Pistol Range. Bullseye shooting, one of the oldest pistol disciplines, is very rewarding and is also very useful for helping other disciplines. You can get into a match with very little equipment and what you need to start is relatively cheap. Just a .22LR handgun and ammo is all you need to get started. A spotting scope is also very useful. New shooters to Bullseye will get to shoot their first match FREE!!! (excludes State and Regional matches)

The Range was built primarily for NRA Bullseye pistol competitions. If you are unfamiliar with this type of shooting you can come out and get a work day in by serving as a Line Safety Officer and at the same time see how the Match is run. Also through out the year we will have classes for new shooters to the Bullseye shooting discipline. Classes are FREE and open to both Gun Club members and the public. Bring a friend. Most Bullseye Matches are on the second Sunday but there are Training Days and Short Course Matches on different dates so be sure to check the calendar.

Before you start shooting be sure you READ and UNDERSTAND the rules posted on the west storage building. Any unsafe activities can get you banned from the Pistol Range and maybe even from the Gun Club. THINK before you do something unsafe.

There are a small number of target stands available for members to use at distances less than 50 yards. Please bring your own 1x2 sticks (approximately 5 feet tall) and a staple gun.

Be sure to confirm the range is available by checking the main online Oklahoma City Gun Club calendar located at www.OKCgunclub.org. The Pistol Range is used by a variety of disciplines:

- Bullseye Pistol
- Oklahoma Pistol Team
- International Free Pistol
- Training Division
- Women's Sport Pistol
- Ladies Pistol League
- National Guard
- Youth Groups
- Law Enforcement Agencies
- Civic Groups

WINTER MONTHS 25 YARD BULLSEYE

During the winter months, November - February, the Bulleseye Division shoots indoor 50 feet bullseye every Thursday with first shots down range at 6:00 PM at H&H Shooting Sports located at I-40 and Meridian (facing I-40), 400 South Vermont, Suite 110, Oklahoma City, OK 73108-1034. Always check the bullseye website “match dates” link for the most current match dates.

Pistol Range - RULES

1. Read and obey range rules while using this range. You are responsible for knowing these rules! Contact club official if clarification is needed.
2. Safety is paramount in all activities conducted on this range.
   ALWAYS keep firearm pointed in a safe direction
   ALWAYS keep your finger off the trigger until you are ready to fire
   ALWAYS keep your firearm unloaded until ready to use
3. **NEVER** handle firearm while someone is downrange.
4. Eye and ear protection is **REQUIRED** when on or near this range.
5. All shooting must be from established firing line - No shooting forward of the bench except for approved and sanctioned events.
6. All rounds must impact the rear earthen berm - no firing shall ever be directed towards the side berm or wall or the range floor. No targets shall be placed on or near the ground. Use a target stand.
7. When two or more people are utilizing this range, one must act as Range Safety Officer.
8. Any person at any time is authorized to declare "Cease Fire" for an actual or anticipated safety issue. Upon "Cease Fire," all firing is to stop immediately.
9. Only handguns are permitted to be used on this range except for approved and sanctioned events. Handguns firing centerfire rifle cartridges (such as .223) are prohibited.
10. All firearms must remain unloaded with actions open and reasonably visible when not in use.
11. Explosives, explosive targets, armor piercing, incendiary or tracer rounds are prohibited on this range.
12. The turning target mechanism (located in trench) is for sanctioned event/training use only.
13. No makeshift targets are to be placed on the ground - no cans, bottles, etc.
14. Members may bring their own targets / target frames and steel targets. (Steel must be 7 yards or more from firing line and high enough that misses impact the rear berm).
15. Club target frames shall not be removed from the range. Members should bring their own sticks and targets.
16. This is your club and a volunteer-operated facility!
    Please clean-up range after each use!

COWBOY ACTION SHOOTING DIVISION

Contact: **J.R. Hile (Flat Top Okie)**
405-409-9442
cowboy@okcgunclub.org

Website: https://www.okcgunclub.org/cowboy-division.html **always check the website for updates**

Location: Cowboy Action Range see map on page 5

INTRODUCTION

The sport of Cowboy Action Shooting provides a great opportunity for the entire family to participate and compete in a shooting sport. The Cowboy Action Division is recognized by the Single Action Shooting Society (SASS) as The Oklahoma Territorial Marshals. Cowboy Action Matches are held on the 2nd Saturday and the 4th Sunday of every month, year-round. An additional match is held on each 5th Saturday.

ANNUAL MATCHES

In addition to hosting two matches per month, we also host Land Run, The SASS National Championship which is the largest Cowboy Action Shooting match in the world. We had more than 700 shooters from 48 states compete in 2026. The success of this match can be attributed to countless hours of volunteer's efforts.

COWBOY ACTION SHOOTING

Cowboy Action Shooting is a multifaceted shooting sport in which contestants compete with firearms typical of those used in the taming of the Old West; single action revolvers (calibers .32 to .45), lever action rifles (calibers .25 to .45 long colt), and side-by-side double barrel or pre-1899 pump or lever action shotguns (12, 16 or 20 gauge). One exception, children under 13 are referred to as a Buckaroo and are allowed to use .22s and 410s.

The shooting competition is staged in a unique OLD WEST style. Cowboy attire is required, which is anything from boots and jeans to clothing that personifies a specific western character. For beginners (long sleeved shirts and jeans will do - no tank tops, shorts or ball caps allowed). You will soon discover that part of the fun is the costume and of course the alias. All real Cowboy shooters have an alias (Oklahoma Gunslinger or ImaQuickshot) which can be associated with your costume. You can be a movie star and never have to go to Hollywood. With a variety of shooting categories, some based on shooting styles, some based on costuming, and some age or gender based, there will definitely be a shooting category for you. Cowboy Action is fast action, fantasy shooting competition.

COWBOY ACTION SHOOTING DIVISION, continued

MATCH TIMES

- Cowboy Match start time is 9:30 AM.
- Sign in begins one hour before a scheduled shoot. We recommend arriving no less than 30 minutes prior to shoot to sign up and get ready.

MORE INFORMATION

Cowboy Action shooting has more female participants than any shooting sport with 25% to 30% the norm. We also have great youth participation; it is truly a family worthy sport. Light loads with very little recoil contribute to the enjoyment for youngsters. To learn more about Cowboy Action Shooting, visit SASS, Single Action Shooting Society, at www.SASSnet.com who is the governing body of this sport. Join the thousands of Old West aficionados who have discovered the fast-growing sport of Cowboy Action Shooting!

Are you thinking about trying it? Don't buy anything, contact Flat Top Okie and he'll get you set up with ammo and firearms so you can join us for the next monthly match; bring the family, you'll have a great time!

HIGH POWER RIFLE DIVISION

Contact: **See page 10 for Division Contacts**

Website: www.okcgunclub.org/high-power-rifle-division.html

Be sure to check the website and club events calendars for updates and changes

Location: High Power Rifle Range see map on page 5

INTRODUCTION

The OKC Gun Club is home of the nicest Known Distance ranges in this part of the country. The division is dedicated to the promotion of rifle marksmanship with a focus on competitive shooting ranging from 200 - 1,000 yards.

Competition within this division falls within three general categories:

- **Across the Course (XTC)** is based upon what is known as The National Match Course, shooters start out at the 200 yard line with the "slow fire" standing event, then shoot rapid fire sitting. After moving to the 300 yard line for a prone rapid fire event competitors move to the 600 yard line for the final event fired "slow fire".
- **M1 Garand, Springfield, Vintage Rifle and Modern Military Rifle Matches (GSM)** are fired from the same positions as the XTC matches but all from the 200 yard line, a great way to get started!
- **Prone Matches** have two main flavors in the High Power Division: F-class and Sling. "F-class" is fired off of a rest or bipod or backpack at distances from 300 - 1,000 yards; **Sling** is fired at the same distances but with only the support of a shooting jacket and rifle sling.

Most of these events are sanctioned with the Civilian Marksmanship Program or The National Rifle Association of America. Local, State, and Regional matches are held throughout the year, and the National Mid-Range Matches are held here annually. A good place for a beginner to start is coming out to observing a match.

HIGH POWER RIFLE DIVISION, continued

ShotMarker Electronic Target System

The High Power Division uses ShotMarker electronic target systems for all matches and practice sessions. Now even while up to 1,000 yards away from the target, a shooter can instantly see hits on any handheld Apple or Android device. Its an exciting way to practice and shoot matches – the way of the future! **See web page for instructions.**

High Power Range Rules

1. Read and obey range rules while using this range. You are responsible for knowing these rules. Contact us at HIGHPOWER@OKCGUNCLUB.ORG if you have any questions.
2. If you have not completed a Highpower Safety Orientation, you will not use this range outside of sanctioned events. Safety orientations are provided annually in the Spring and by appointment at a cost of $20.
3. Complete all range safety and setup procedures prior to firing. (see posted range safety procedures)
4. When two or more people are using the range, one must act as the Safety Officer.
5. Any person at any time is authorized to declare a “Cease Fire” for an actual or anticipated safety issue. Upon “Cease Fire” immediately stop firing and make rifles safe - take further instructions from the Safety Officer.
6. Target Requirements:
   a. Conventional Targets (Located in the 600yd practice shed): Only target frames provided by the range will be utilized. Only one target per frame which must be well centered within the frame. Only paper targets are authorized. Target frames and targets are located in the target shed. The combination to the target shed is provided during the safety orientation.
   b. Electronic Targets: Only target centers provided by the division will be used with electronic targets. Do not paste or staple anything over electronic target centers.
   c. Steel Targets: Only steel targets provided by the club will be shot on this range. No personal steel targets authorized. No armor piercing bullets.
   d. No other targets placed anywhere on the range is authorized. Do not staple targets to target carrier uprights.
7. While on this range rifle actions will be opened, with Empty Chamber Indicator (ECI) in place, until safe to fire. You may obtain an ECI during the orientation or from a range official for $1.
8. Muzzles must be forward of firing lines during live fire.
9. Level Loading is mandatory: When loading, the rifle must be level or below the horizon when the bolt is being closed.
10. All rounds fired must impact either the 600yd berm or the 1000yd berm without exception. Firing lines are not impact berms and should never be shot.
11. No driving on any firing lines.
12. Targets must be shot from the corresponding firing point - i.e. shoot target 13 from firing point 13 on the firing line – do not shoot across the range, only directly down range.
13. No caliber in excess of .35 caliber allowed on the range.
14. No .223Rem/5.56x45/Nato rounds lighter than 62gr may be shot beyond the 300yd line.
15. No 7.62x39 (AK type ammo) may be shot beyond the 200yd line.
16. Incendiary or tracer rounds are prohibited on OKCGC property.
17. Pick up all your brass and trash before you leave the range.
18. Secure the range before leaving including flags and signs.
19. If you are unsure, DON'T!!

600yd Range safety and use procedures:

- Observe the range from the 600/1000 yard line ensure no one is down range.
- Turn red “range in use” lights on.
- Post both “range in use signs” and drop placard before proceeding down range road.
- Check each firing line for personnel while proceeding down range.
- Stop at the 200yd line and raise the flag.
- Proceed to target area to ensure no personnel are present.
- Place appropriate target in carrier.

1000yd range procedures:

- Follow all procedures above.
- Proceed to 1000yd gate and raise flag right of gate.
- Proceed to target area to ensure no personnel are present.
- Place appropriate target in carrier.

Range Use

The High Power range is intended primarily for practice and pursuit of the high power rifle marksmanship disciplines. Casual rifle shooting is permitted but rules must be observed.

Range Priority of Use

1. Sanctioned Matches
2. Work details such as mowing, weed eating, etc.
3. Organized practice sessions
4. All other shooting

HISTORIC 3-GUN DIVISION

Contact: **Tommy Hager (Hondo Tweed)** 405-694-5270 hondotweed@gmail.com
JB Waltermire (Elwood James) 405-612-0604 jbw65@att.net

Websites: https://www.okcgunclub.org/historic-3-gun.html
Location: Cowboy Action Range see map on page 5

MATCH TIMES

- Historic 3-Gun matches are held on the second Sunday and fourth Saturday of each month. Be sure to check the OKC Gun Club event calendar for exact dates.
- Summer hours are 9:00 AM from May through September.
- Winter hours are 10:00 AM from October through April.

INTRODUCTION

The era for Historic 3-Gun (H3G) is from 1900 through WWII, with a focus on the 1915 era, allowing uniforms/clothing, and more importantly firearms from the period. H3G is true to the 3-Gun concept with high round counts and movement using iconic firearms from the early 1900's. It is not a fitness sport, nor is it bullseye competition. If you like USPSA or Wild Bunch, you'll love Historic 3-Gun.

SAFETY is the number one concern and SAFETY is the responsibility of every shooter.

SHOOTING OPPORTUNITIES

Staged H3G has 6 divisions (listed below) based on what guns you will shoot. All six of the divisions allow the 1911 pistol and a Winchester model 1887, 1897 or 1912. For other than the Bootlegger division, the rifle you shoot determines what division you are in. Each division competes only against itself, as there is no overall winner for the match.

We shoot in squads. Every member of the squad pitches in to help with spotting, timing, picking brass or score keeping. We welcome you to attend this incredibly fun and entertaining new shooting sport.

Stage scenarios incorporate lateral as well as down range movement, with action targets such as swinging plates, dueling trees, falling-plate racks, and clay bird poppers. Typical round count per stage are 21-28 pistol, 5-10 rifle, and 5-8 shotgun.

Another entertaining part of H3G is costuming and choosing an alias. During match events, the typical attire worn by participants is that late-19th-20th century Western/Mexican wear or military attire. An example would be Roosevelt's Rough Riders. Alias' can vary widely and can be based on historical figures, the style of dress you choose to portray a character, or even something personal to you. The choices for your costume and alias are endless.

HISTORIC 3-GUN DIVISION, continued

DIVISIONS

Traditional – Pistol must be a full size 1911 in 45 caliber, with fixed sights in the style of the original 1911 or 1911 A1 issued to the U.S. military. The pistol must be shot one-handed, unsupported. A lever or pump action rifle in a pistol caliber of .40 or larger is required. Any approved shotgun

Modern – Pistol shall be any approved model in 45 caliber. It may be shot one handed or two handed. A lever or pump action rifle, in a pistol caliber of .40 or larger is required. Any approved shotgun.

Doughboy – Any approved 1911 and shotgun. A mil spec bolt ac-on rifle issued by any country by the end of WWII is required. Rifles, or replicas, maintaining the original specifications that have been re-chambered to a different rifle caliber (i.e. 7.62x51) are allowed

Ranger - Any approved 1911 and shotgun are allowed. A lever action rifle in a rifle caliber originally manufactured by the end of WWI is required. Also allowed is a newer rifle that follows the design of an earlier rifle of the required era. (Marlins and Henrys are allowed.) The model 14/141 pump rifles are allowed. Rifle receiver or tang sights are allowed.

Audie Murphy - Any approved 1911 and shotgun. A U.S. M-1 carbine.

Bootlegger – This division allows a wide assortment of firearms. Using any or all of these puts a competitor into this division. Options include: 1. Pistol: All centerfire service pistols which were originally manufactured by the end of World War 2, including the 1911 45, P-38, Browning Hi-Power, Luger, Broom Handle Mauser, Colt 1902 hammer pocket model. 1911 38 Super/9mm, 1917 Colt, Smith or Webley with shaved cylinder using 45 ACP with full or half-moon clips. 2. Shotgun: All pump and lever action shotguns with wood furniture are allowed. Any legal barrel length in 12, 16 and 20-gauge are allowed. Magazine tube may be extended to the end of barrel. Period-correct external chokes are allowed. 3. Carbines: all pump action, lever action and semi-automatic in true pistol centerfire caliber originally manufactured by the end of WW2 are allowed. Wood furniture is required. Winchester 1905 S.L. 1907, if downloaded to 1550 fps or less and the Thompson carbine (SBR) allowed. Allowed includes registered full auto Thompson used in semi mode, the Suomi carbine, the M1 carbine in 9mm, and the Henry Homesteader 9mm, resembling a 1905/07 Winchester are allowed.

Age and Defined Categories: age-based categories in each division:

Deputy – 16 years and younger

Trooper – Any age

Marshal – 65 and older

HOW TO GET STARTED

Considering trying Historic 3 Gun, but don't have all or any of the required firearms? That's OK! Don't buy anything! Contact Tommy (aka Hondo Tweed) or JB (aka Elwood James) prior to a scheduled monthly match and they will get you outfitted with everything you need to give it a try. That way, you can decide what category you would like to participate in, and what firearms you would choose to acquire for competition. If you have historic weapon you want to shoot, we will figure out a way to incorporate it into one of our divisions. Bring the whole family for a day of fun.

MUZZLELOADER DIVISION

Contact: **Ron Doggett** LuvmySkye@aol.com **Mark Van der Veer** 405-808-2728 mvanderveer@cox.net

Website: https://www.okcgunclub.org/muzzleloader.html **always check the website for updates**

Location: Blackpowder Range see map on page 5

INTRODUCTION

The Oklahoma City Gun Club welcomes all new shooters to come out and give this exciting and challenging discipline a try. This discipline is very easy to get into and not too costly. Someone is always happy to help you out if you run into trouble or if you do not understand something. Matches are on the first and third Sundays of the month all year long.

Even if all you want to do is brush up on your hunting or shooting skills, Muzzleloaders will definitely help.

Match cost is $5.00 for Rifles and Pistol Match is FREE with Rifle Match. Pistols start at 9:00 AM and Rifles right after or around 10:00 AM and Hawk Throw.

Basically any Muzzleloading Rifle or Pistol qualifies.

Shooting is offhand unless otherwise noted.

We have different Matches each month with varying targets from steel to paper to a "Rendezvous" and even a Benchrest Match.

We have an annual "Chili" Shoot (a chili lunch provided) in March, a "Turkey" Shoot (give a turkey to winner) in November, a "Ham" Shoot (give a ham to winner) in December.

We shoot all year round as long as the roads are not bad.

RECEIVE EMAIL NOTIFICATIONS

An email list is available for those that want reminded of the upcoming matches and any changes to the schedule. Send your email address to LuvmySkye@aol.com.

Muzzle Loading Range - RULES

1. Read and obey range rules while using this range. You are responsible for knowing these rules! Contact club official at muzzleloader@okcgunclub.org if clarification is needed or to report maintenance issues.
2. Safety is paramount in all activities conducted on this range.
   ALWAYS keep firearm pointed in a safe direction
   ALWAYS keep your finger off the trigger until you are ready to fire
   ALWAYS keep your firearm unloaded until ready to use
3. When anyone is down range all firearms shall be removed from the shooting bench and placed into a gun rack. No handling of any firearms while people are downrange.
4. Eye and ear protection is **REQUIRED** when on or near this range.
5. All shooting must be from established firing line - No shooting forward of the bench except for approved and sanctioned events.
6. All rounds must impact the rear earthen berm - no firing shall ever be directed towards the side berm or wall or the range floor. No targets shall be placed on or near the ground. Use a target stand.
7. When two or more people are utilizing this range, one must act as Range Safety Officer.
8. Any person at any time is authorized to declare "Cease Fire" for an actual or anticipated safety issue. Upon "Cease Fire," all firing is to stop immediately.
9. All firearms must remain unloaded with actions open and reasonably visible when not in use.
10. Explosives, explosive targets, armor piercing, incendiary or tracer rounds are prohibited on this range.
11. No makeshift targets are to be placed on the ground - no cans, bottles, etc.
12. Members may bring their own targets / target frames and steel targets. (Steel must be 7 yards or more from firing line and high enough that misses impact the rear berm).
13. Club target frames shall not be removed from the range. Members should bring their own sticks and targets.
14. This is your club and a volunteer-operated facility!
    Please clean-up range after each use!

NRA ACTION PISTOL DIVISION

Contact: **Chuck Abston**
405-812-8223
cwa33582@yahoo.com

Website: https://www.okcgunclub.org/nra-mover.html **always check the website for updates**

Location: Cowboy Action Bays see map on page 5

INTRODUCTION

Pistol and Revolvers are all welcome to shoot with us in the club events. No magnums or 5.7.

If you want to shoot at some fun events in competition or just for life saving practice, this is the place! All shooting is done from stationary positions and under time limits. No moving and shooting involved.

Our goal is to have fun shooting accurately and fast.

The target is tomb stone shape rather than Man shape.

The center is a 4 inch black circle and counts as an X plus 10 points.

The next circle is 8 inch in diameter and counts as 10 points

After that is the 8 point ring and anything else on the target counts as 5 points.

THE EVENTS

The Mover: You think of a time and place where you might have to hit a moving target. Do you know how much lead you would have to take at a given distance to hit that target? Do you know how to calculate that lead? We can help. The Moving target comes from behind a barricade moving at 10 feet a second and is shot at 10, 15, 20, and 25 yards. At 10 and 15 yards, six shots each pass and at 15 and 25 yards three shots per pass.

The Barricades: Here is a another event we shoot. Here you can learn how to shoot from behind (barricades) at fast, presentation, tombstone shape targets. The tomb stone target is shot at 10, 15, 25 and 35 yards under time limits.

NRA ACTION PISTOL DIVISION, continued

The Steel Plates: At the steel plate event there are six 8 inch round steel plates spaced 12 inches apart. They are shot at 10, 15, 20, and 25 yards under varying time limits.

The Practical Event: At this event we shoot at the tomb stone target under time limits at 10, 15, 25 and 50 yards. At longer distances, some competitors go prone and shoot.

All four events consist of 48 rounds for a possible max score of 1920 with 192 x.

ABOUT THE NRA/CMP ACTION PISTOL DIVISION

The NRA/CMP Action Pistol division at the Oklahoma City Gun Club is open to all individuals interested in SAFE and FUN courses of fire, which combine ACCURACY and SPEED. The courses of fire in our events were designed after the events held at the Bianchi Cup match in Columbia, Missouri, a CMP National Championship event. The rules we use are NRA.

Practice and matches are open to the public. You do not need to be a member of the NRA, CMP or the Oklahoma City Gun Club to participate in our matches.

NRA/CMP action pistol events are held on the first Sunday of each month. In the summer months, sign-in is at 8:30 a.m. In the colder months, we start an hour later. Cost for the practice events are $5.00 and match cost is $20.00.

PLINKING DIVISION

Contact: **Marc McCormick**
405-749-6952
marclm@yahoo.com

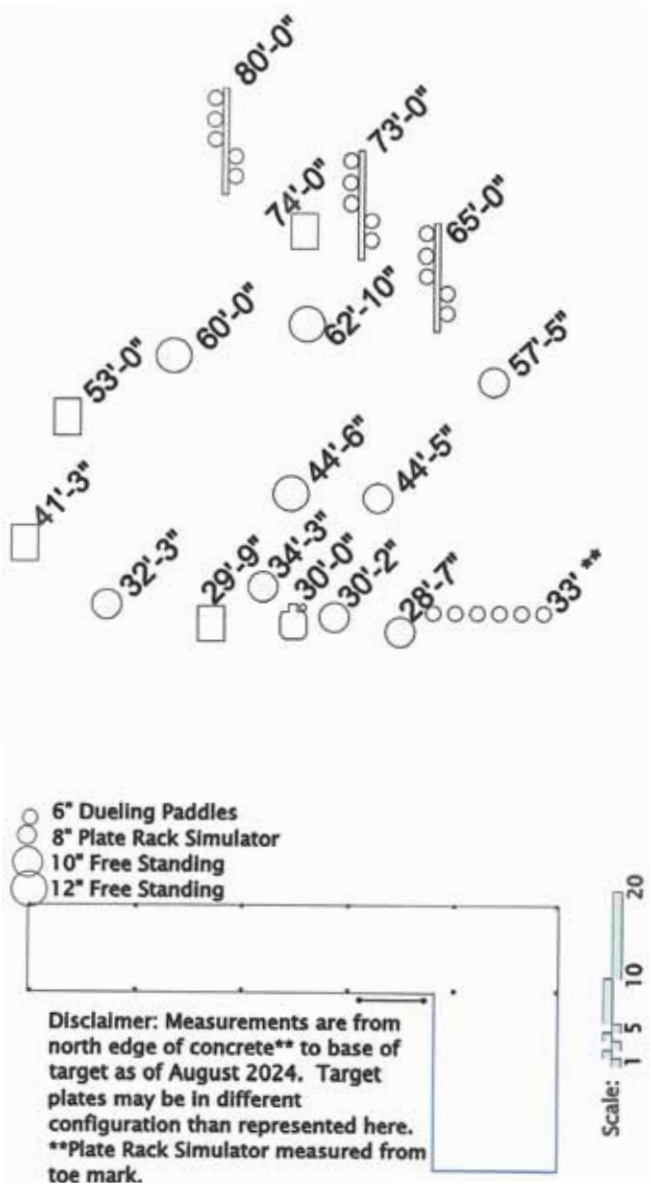

Tom Peace
661-770-6147
tpeace3600@gmail.com

Website: www.OKCgunclub.org/plinking-range.html **always check the website for updates**

Location: Plinking Range see map on page 5

INTRODUCTION

The Plinking Division is an informal range designed for all types of handgun and pistol caliber carbine, rimfire to center-fire. Attention Plinking Range users: As constructed and as intended to be used, the Plinking Range is safe and all bullets are properly contained within the berm. It is very important that absolutely no additional targets be attached to the steel targets or placed directly on the ground. When the bullets impact the ground at such an angle they could ricochet and leave the bay. For safety reasons, all shots must impact the berm.

Please observe the posted rules for use of the Plinking Range and only engage the provided plate racks when using this range. Range Rules may be found on the following page. Please notify Marc McCormick or Tom Peace with questions or broken targets. Enjoy yourself and be safe!

Plinking Range - RULES

1. **Read and obey range rules while using this range. You are responsible for knowing these rules! Contact us at plinking@okcgunclub.org.**
2. **Safety is paramount in all activities conducted on this range.**
   ALWAYS keep firearm pointed in a safe direction
   ALWAYS keep your finger off the trigger until you are ready to fire
   ALWAYS keep your firearm unloaded until ready to use
3. **NEVER handle firearm if someone is downrange.**
4. **Eye and ear protection is REQUIRED when on or near this range.**
5. **All shooting must be from established firing line.**
6. **All rounds must impact the rear earthen berm - No targets shall be placed on or near the ground.**
7. **Only targets provided are to be used, no homemade or improvised targets.**
8. **When two or more people are utilizing this range, one must act as Range Safety Officer.**
9. **Any person at any time is authorized to declare "Cease Fire" for an actual or anticipated safety issue. Upon "Cease Fire," all firing is to stop immediately.**
10. **Only pistol caliber firearms are permitted to be used on this range. Firearms chambered in centerfire rifle cartridges (such as .223) are prohibited. Examples of pistol caliber cartidges are 9mm, 40 S&W, 45 ACP, 38 special, 44 magnum, 45 Colt. If you have questions about what cartridges are permitted or to report damaged targets, please contact us via email at plinking@okcgunclub.org.**
11. **All firearms must remain unloaded with actions open and reasonably visible when not in use.**
12. **Explosives, explosive targets, armor piercing, incendiary or tracer rounds are prohibited on this range.**

INTRODUCTION

Many of us begin our reloading endeavors through a friend or acquaintance in an informal setting without any formal structure often leaving the neophyte with more questions than answers. Enter the Oklahoma City Gun Club; the club leadership has established a Reloading Division which will meet in the reloading shack at the Silhouette Range! NRA certified reloading instructors will teach classes in metallic rifle and pistol reloading as well as shotshell reloading. These classes will be a combination of lecture and hands-on with students reloading several rounds of ammunition in class.

In addition, the facility will be open at different times to allow members who have graduated the reloading course to reload your own ammunition using club equipment under the watchful eye of experienced reloading instructors. Members will need to provide their own supplies; for metallic reloading you'll need to provide your own powder, primers, bullets, and dies if we do not have the one for your caliber. For shotshell you'll need hulls, primers, powder, wads, and shot.

Reloading can save you money and allow you to work-up loads tailor made to shoot from your firearm providing you with a more accurate round. You'll find that it is a great pastime and one that reaps rewards for years.

INTRODUCTION

Welcome to the Shotgun Division. Three shotgun disciplines are offered at the Oklahoma City Gun Club: skeet, trap and 5-stand. Our number one priority is SAFETY, and the second is to have fun. Be sure to check the Oklahoma City Gun Club main website calendar for current events.

Opportunities include:

- Skeet, Trap, and 5-Stand
- Skeet Leagues
- Trap Leagues
- Registered Skeet and Trap
- Beginner Skeet Lessons
- Beginning Trap Lessons

RANGE LOCATION, HOURS, AND GENERAL INFORMATION

The Shotgun Division ranges are located on the east side of the club property. Our gate is located one-quarter of a mile north of Sorghum Mill Road, on Hiwassee Road, on the left. Access thru the gate requires the combination from your badge followed by the #. We have 5 skeet fields, two of which overlay trap fields. Other facilities we offer include: a hand trap where you can bring your own targets; a pattern board to test your loads; a clubhouse with two restrooms and a kitchen; another building by fields #3 and #4 with two restrooms; a large pavilion with picnic tables and benches; and 22 camper spaces with electricity and water hook-ups.

GUNS AND EQUIPMENT

Any shotgun (pump action, semi-automatic, side-by-side, or over/under) capable of holding 2 shells (Never load more than 2 at any time on the range and only load when you are on station) can be used to shoot skeet or trap. Registered skeet targets are shot with the 12, 20, 28 gauge and .410 bore shotguns. Registered trap targets are normally shot with a 12-gauge shotgun. Eye and ear protection are a MUST while on the range either shooting, scoring or watching; and a vest or bag for carrying shells and empty hulls is needed. ONLY 7 ½ - 9 lead (no steel) shot is permitted on any skeet or trap field. Nothing larger! When carrying your shotgun from your vehicle to the fields, the action MUST BE OPEN to show it's a safe gun.

SKEET INFORMATION

Skeet is a shotgun sport in which a shooter fires at clay targets while progressing through 8 stations around a semi-circular field. The targets are thrown from a high house on the left, and a low house on the right, so they cross a point in the center of the field at a height of 15 feet.

SHOTGUN DIVISION, continued

TRAP INFORMATION

Trap is a shotgun sport in which the shooter fires at clay targets thrown from a single trap house, while the shooter stands on one of 5 stations graduated from 16 to 27 yards behind the trap house. It is normally shot with a 12 gauge gun. The guns most commonly used for trap are the semi-auto and over/under.

TRAP AND SKEET LEAGUES

Check the website and "Primer" for information regarding leagues. These are open to the public, and novice shooters are welcome. All shooters are assigned to a five person squad, and competes alongside another squad each week.

BEGINNER SKEET LESSONS

Beginner's skeet lessons are held usually one Saturday a month, at the Shotgun Clubhouse, from 9:00 AM until noon. Check the main gun club event calendar for dates. **Pre-registration is required** because class size is limited. To register please email shotgun@okcgunclub.org. The cost is $40.00 which includes targets. The lesson plan will cover gun safety, gun fit, basic skeet fundamentals, and skeet etiquette. Participants will need to bring:

- 4 boxes of target load shells. No. 7 1/2-9 shot (Lead shot only - NO steel shot)
- Eye protection
- Ear protection
- A ball cap or visor and a shell bag to hold your ammo

REGISTERED SKEET AND TRAP

The Oklahoma City Gun Club is proud to host numerous registered skeet and trap tournaments throughout the year, which are officially sanctioned by the National Skeet Shooting Association (NSSA) and the American Trap Association (ATA). Participation in these shoots requires current membership in the NSSA and the OSSA (Oklahoma Skeet Shooting Association) for skeet, as well as ATA and OTA (Oklahoma Trap Association) for trap. All shooters must present a valid membership card and current classification card for entry into the shoots.

5-STAND RANGE

The 5-Stand range is located on the North end of the gun club. You will enter through the Cowboy Action gate (Gate 3) off Hiwassee, then left, following the signs to 5-Stand, going past Smallbore/Air gun and Muzzleloader Ranges. It is located on the West side of these ranges.

5-Stand blends skeet, trap, and sporting clays into one range with very little walking or movement. 5-Stand simulates real-world bird hunting with machines launching different-sized clays from multiple locations, angles and speeds. 5-Stand is a shotgun range, where shooters can use any gauge of shotgun. Typically, shooters use 12 or 20 gauges. Typical loads use 1-ounce or 1-1/8-ounce shot of #7.5 or #8 sizes, Lead shot only – NO steel.

There are 5 shooting windows in which the shooter will see 25 total clays from up to eight different machines and numerous directions. At each window, shooters will see 5 clays, shooting a single, a report pair (one at a time), and a true pair (both at the same time). Once shooting for that window is complete, the shooter moves one window to their right and shoots again. The overall order is for a window to shoot the single, then the next window will shoot their single, and so on until everyone has shot the 5 above-mentioned clay order.

SHOTGUN DIVISION, continued

The shooting order will be listed on a small “menu” board in front of each station and will coincide with numbered orange cones by/near each machine on the field. This allows the shooter to see where the clay will fly from. The machines are set up from easy to challenging flight patterns, enabling novice to expert shooters to enjoy the range.

Currently (as of 2026), OKC Gun Club 5-Stand has 12 machines and offers 5 types of clays. A Rabbit that typically runs along the ground. A 90 mm (3 1/2") Midi that is harder to see and will fly faster than a typical target and creates an optical illusion of being farther away, A 60 mm (2 1/4") Mini that flies very fast off the arm of the machine but rapidly loses its momentum because of its lighter overall weight. A battue clay is a wafer-thin clay that flies in fast loops, and a typical AA 108 mm (4 ¼”) clay. We will use a combination of at least eight machines for a 5-Stand event. And no two events will have the same setup.

5-Stand offers league options for several times each year, shooting on Mondays or Tuesdays (subject to change), along with the scheduled monthly shoots, typically on the third Sunday of the month. The leagues and monthly shoots are open to club and non-club members. League/Monthly dates are advertised via social media and email.

As with any range at the Oklahoma City Gun Club, shooters will need eye and ear protection while on the range. So come on out and shoot a couple rounds of 5-Stand.

The monthly shoots begin at 12:00 PM-3:00 PM on the 3rd Sunday of the month. The cost is $10.00 a round, five people can shoot at a time, and you will be squadded on a first come first serve basis. As always, CHECK THE WEBSITE CALENDAR for any last-minute changes such as weather cancellations.

Please do not hesitate to contact us with any questions. Suzi Rouse, 405-818-6125, president@okcgunclub.org or Chris Alexander, 580-453-1182, clalexander14@gmail.com

MEMBER RESPONSIBILITIES

This is a volunteer-run club, so each person shooting on the shotgun range is responsible for signing in before shooting and cleaning up the range when finished shooting which includes: picking up empty hulls, rolling up the cords and putting them in the low house, de-cocking the machines and loading them, and flattening empty target boxes and putting them in the incinerator. Targets are paid for using the Briley system on each field. Tokens and/or Smart cards can be purchased on Saturday's from 10am until noon. There is also a token machine located by the sign in board. Instructions for using the Briley boxes are located on the shotgun web page.

CHILDREN AND SPOUSES

Feel free to bring your family. Young shooters are always welcome, and may shoot as long as they are big enough to handle the gun and know gun safety. As a member, you will be expected to shoot with or accompany any shooter under 16, as well as any guest you bring to the range.

SHOTGUN EXTENDED ACCESS

All skeet and trap fields are honor's fields and may be used by members out of our regular hours. Before a member receives honor's field privileges for the skeet/trap fields, he/she must: attend a safety orientation class. This class will be offered periodically, instructions for signing up will be emailed to the membership.

SILHOUETTE DIVISION - AR STEEL PLATE CHALLENGE

Contact: Steve Gerot 816-315-0573 gerot@gmail.com
Roger Arens 405-590-4037 roger.arens@hotmail.com

Website: www.OKCgunclub.org/silhouette-division.html **always check the website for updates**

Location: Silhouette Range see map on page 5

INTRODUCTION

The AR Steel Plate Challenge match takes place March through September on the last Saturday of each month at 8:30 AM on the Silhouette range. As always, with any match on our range, be sure to check event calendar on our web page at www.okcgunclub.org for any date changes.

This match is for the average club member to have fun with his or her AR-15 & the main rules are, as stated below is safety both while on the line or behind the line. You do not have to be a club member to shoot this match, so you can bring a guest. Safety chamber flags are a must & are provided. Bring your own eye & ear protection.

If you plan on shooting all three events, (20 rounds each) including practice rounds you will need 85-to-100 rounds.

Any calibers on the AR platform are legal. No magnum rifle calibers are allowed on the silhouette range.

You are allowed practice rounds before each event before shooting for score.

The steel plates are left up on the range at all times at all distances so club members can practice on off-match dates, just be sure that you do not shoot at any silhouette targets while using the silhouette range. Range rules are posted above the sign-in box left of the silhouette clubhouse door.

You are required to sign-in anytime you use the silhouette range facility. Contact Division Director above, if you have any questions.

SAFETY

1. Safety is the number one concern while competing in this match.
2. Eye and ear protection is required to compete in this match.
3. Upon completion of your course of Fire, and Before Leaving Your Shooting Position, Magazines Out, Safety Flags in Chamber. We provide safety flags.
4. No Armor-Piercing Bullets Allowed on the Silhouette Range, regular FMJ OK.
5. Do Not Shoot at Any Silhouette Targets Either During the Match or While Practicing on This Range. Shoot at Swinging Steel Plates Only!!!!!
6. Pick Up Your Brass Immediately After Completing Course of Fire. We provide a brass catcher.

SILHOUETTE DIVISION - AR STEEL PLATE CHALLENGE, continued

MATCH FORMAT

1. This is a 20-Round Match - Five (5) Shots Are Fired on Steel Plates at Each Distance. Club members as well as non-club members may shoot in this match.
2. There are three courses of fire, with 5 shots fired on steel plates at each distance for a total of 20 rounds on each course (1) SHORT COURSE - 100 meters, 150 meters and 300 meters. (2) LONG COURSE - 200 meters, 300 meters, 400 meters & 500 meters. (3) SPEED EVENT - 20 rounds shot on the short course of fire, within a one minute, (60 second) time frame. All ties will be shot off.
3. Entry Fees Are $10.00 Per Entry There is no additional charge if you shoot the 20-round speed event providing you shoot both the short range course and long range course. You May Shoot a Re-entry for $5.00 After Everyone Has Completed Their Course of Fire, But This Score is Not Counted in the Match. Please Mark Re-entry on Your Scorecard.
4. You Shoot Off a Bench With Supplied Front Rest or if You Prefer & Your Rifle Is Equipped With a bi-Pod You May Use It. You may also shoot in the prone position on a shooting mat if you like. Brass catchers are provided.
5. You Are Allowed a Spotter to Score Your Hits - X=Hit 0=Miss
6. This is a Elapsed Time Event Your Time For 20-Rounds Will Be Recorded by a Designated Person With a Very Accurate PACT Timer
7. Please Note; Tie scores Will Be Broken by Shooters Total Elapsed Time and Score. Example: Two Shooters Tie with a score of 15x20, Shortest Elapsed Time Determines the Winner. If a Tie Still Remains, a Shoot-off Will Then Take Place Between Competitors. NOTE: You Have a Limit of Four (4) Minutes to Fire Twenty (20) Rounds; Any Late Shot Will Not Count.
8. Sign Your Score card After Completing Your Course of Fire, Once You Sign it, You Are Responsible For Any Mistakes.
9. If Your Gun Malfunctions During Course of Fire and You Can't Resolve the Problem Within a Reasonable Amount Time, Safety Flag in, Magazine Out!!!
10. Make Sure You Fill Out Your Score-Card Correctly From Top to Bottom
11. This Match is Designed to Have Fun With Your AR, So Please Abide by the Rules Set Forth, So We Can Continue Shooting This Match. We Will Shoot the Last Saturday of Each Month, March thru November, Starting at 8:30 AM you may go to our website, www.OKCgunclub.org and check the event calendar for exact dates.
12. A new event will be a 20-round speed event where you will have one minute to fire 20 rounds on steel plates from 300 meters, back to 100 meters; 5 rounds on each plate. There is no charge for this match providing you have paid for the two other matches.

Location: Silhouette Range see map located on page 5

INTRODUCTION

We welcome anyone wanting to shoot High Plains Handgun Metallic Silhouette (HPHMS) at the OKC Gun Club. If you have not shot this before then your first time is FREE!!! Don't be discouraged if you do not have one of the specialty guns. Just bring what you have. Many Gun Club members will be happy to let you use their gun and even provide assistance and ammo. Every member encourages you and wants you to do well. So come on out and bring a friend. You will wonder why you never tried it sooner. The Silhouette Range at the Gun Club utilizes a new remote controlled auto target reset system.

WHAT IS HPHMS?

HPHMS is a new this year with the purpose of promoting handgun silhouette competition that even the beginner will enjoy beginning with their very first match. The object of the competition is to knock down metallic silhouettes (chickens, pigs, turkeys and rams) at various ranges out to a maximum distance of 500 meters. Both center fire and .22 smallbore. We shoot a monthly matches March thru November, then we host a State Championship, a Regional Championship, then a National Championship normally in the month of July.

SOMETHING FOR EVERYONE!

Many different types of matches are shot and there is always one to suit any member of the family. The matches vary according to handgun type (Air Pistol to .22 to big bore) and shooting position (standing to free style). We pride ourselves in our diversity as HPHMS is open to men, women and children of all ages and physical abilities.

IT'S SIMPLE AND EXCITING!

Hit a steel target and knock it over. You will find silhouette shooters helpful and friendly and more than willing to go out of their way to assist you. The game is actually very simple and you probably already own a handgun that qualifies for competition. It will make you the absolute best pistol shot you can be!

SILHOUETTE DIVISION - BLACK POWDER CARTRIDGE RIFLE (BPCR)

Contact: **Todd Tullio**
405-856-4050
tullio@pldi.net

Website: www.OKCgunclub.org/silhouette-division.html **always check the website for updates**

Location: Silhouette Range see map located on page 5

INTRODUCTION

As part of the Silhouette Division, this match is an NRA approved match and is conducted on the first Saturday of the month, March thru November, at the Silhouette Range. The rifles used are the traditional type in use during the 1870-1900 time period - strictly black powder and lead alloy bullets. No gas checks or jacketed bullets allowed. The only black powder substitute allowed is Pyrodex.

Rifles common to the era are: the 1874-1875 Sharps, 1885 Winchester, Remington Rolling-Blocks, and Stevens 44,1-1/2. There are many more rifles, too many to list here, suitable for this type shooting. Modern reproductions are acceptable.

Calibers most commonly in use are the .40-65 Winchester and the .45-70 Winchester. You will also see the .38-55 Winchester, .38-50 Remington Hepburn, .40-70 Sharps Straight, and the .45-90 Winchester.

Normally, sighting equipment consists of a tang mounted vernier rear and a globe type front sight using interchangeable inserts. Apertures or post are the most common.

There is also a scope category. Scopes are of the traditional style in use during the 1860-1900 time frame. There are three (3) or four (4) brands available. Oklahoma City Gun Club member Dan Zimmerman of DZ Arms produces world renowned scopes and BPCR rifles.

The targets are of steel plate, cut to resemble full sized animals:

- The 200M target is a silhouette of a Chicken. Shot in the standing position.
- The Pig is positioned at 300M and shot from the sitting or prone position using crossed sticks.
- The Turkey is at 385M.
- The Ram is at 500M. Again, shot from the sitting or prone position using crossed sticks.

Ten (10) shots for score at each animal at each of the four (4) distances. Unlimited sighters shots are allowed for each animal prior to going for score. Keeping in mind you will have a seven (7) minute time limit for the first five (5) shots for record. The second five (5) shots for record will have a five (5) minute time limit, and sighters are not allowed. Approximately sixty (60) rounds are required for a complete match.

This is a highly competitive and highly rewarding sport. Using the equipment and the basic technology available to the shooter and hunter of the late 1800s to hit the steel animal sized targets from 200M out to 500M distances.

The NRA Rifle Rule Book may be downloaded at:

https://compete.nra.org/documents/pdf/compete/rulebooks/sil-r/sil-r-book.pdf

If you feel you would like to participate in this type competition, or just want to know more about it, come on out on the 3rd Saturday of the month, March - November. Your first match is free.

If you cannot wait until then, email Todd Tullio at tullio@pldi.net

INTRODUCTION

The Smallbore/Airgun Range holds several Rimfire and Airgun matches, also scheduled practice days.

.22lr BENCHREST

Dates: The first Saturday of the month, March through December.
Location: Smallbore/Airgun Range. **Match:** Four targets at 50 yards.
Divisions: OPEN RIFLE: Unlimited .22lr rifle and equipment.
FACTORY RIFLE: Will have factory barrel, no one piece rest, no tuners, intended for entry-level equipment and/or shooters.
Awards: 1st, 2nd, 3rd place medals will be given for Open Rifle and Factory Rifle Divisions.
Contact: Mike Tokar

.22F CLASS

Dates: Second Saturday of the month.
Location: Smallbore/Airgun Range. **Match:** Three targets shot prone at 100 yards.
Divisions: SPORTER RIFLE: Shot with bipod and rear bag, rifle including bipod and scope, weight limit is 10.5 lbs.
FT/R RIFLE: Shot with bipod and rear bag, rifle including bipod and scope, weight limit is 18 lbs.
OPEN RIFLE: May use mechanical front rest, rifle weight limit is 22 lbs.
Award: 1st, 2nd, 3rd place medals will be given to each division.
Contact: Kelly McNitt

NRL22

NRL22 match will be held at the OKCGC Small Bore range (formerly the east muzzleloader range). Enter at the Cowboy action gate off Hiawassee and follow the road back to the left towards 5 stand. Sign in starting at 8:15 AM and match start at 9:00 AM. The GPS coords to the gate are (35.71888,-97.30080)
When: 4th Saturdays of the month NOTE: ALWAYS check the online calendar for updates
Cost: $20 for non-members, $15 for Club members.
Mission statement, match format and rules can be found on the OKCGC website under Smallbore Division.
Contact: Phillip Brandt

CMP SPORTER RIFLE

Date of Match: Calendar year 2026, see the club online calendar for specific dates.
Location & Directions to the Range: The match will take place at the Muzzle Loader Range. The OKC Gun Club is located north of the town of Arcadia, east of Edmond OK. From I-35, take Exit 141, which is the old route 66, eastbound. Arcadia is approximately 7 miles. One-mile past Arcadia is a left turn for Hiwassee Road. Proceed north on Hiwassee Rd for approximately 3.5 miles to the entrance, on the left, for the Cowboy Action and Muzzle Loader ranges just beyond the Sorghum Mill/234th Street.
Competition open to: Any eligible competitor 10 years of age or older. You need not be a member of the NRA, CMP or the OKC Gun Club.
Entry Fee: (Payable at check-in, cash or check)
$15 for non OKC Gun Club members
$10 for club members and each guest. (two guests or immediate family)
$3 for U18 Juniors. (Under 18yo at registration)
Registration period: 0830 - 1000hrs, morning of, Firing Starts: 0900hrs

Location: Training Range see map located on page 5

INTRODUCTION

The Training Division has many opportunities available to educate both members and the public in firearm safety and responsibility in many different shooting disciplines. In addition to personal defense and situational awareness, we offer advanced classes, along with special discipline classes that are all conducted by local and nationally recognized instructors. Some of the classes the Training Division offers are listed below:

- NRA Certification classes in Shotgun, Rifle, and Pistol
- NRA Instructor Certification classes in Shotgun, Rifle, and Pistol
- Concealed Carry Classes (Oklahoma Self-Defense Act)
- Home Defense Shotgun/Carbine Classes
- Basic Handgun Classes
- Basic Holster Skill Classes
- NRA Personal Protection in/outside of the Home
- NRA Range Safety Officer Certification
- NRA Chief Range Safety Officer Certification

Additionally, the Training Division schedules Scouting America Troops each year for their shotgun and rifle merit badge certification and many Civil Air Patrol Cadets camp to shoot rifles and shotguns.

TRAINING DIVISION, continued

LADIES PISTOL LEAGUE

The Training Division hosts the OKCGC Ladies Pistol League that meets twice a month and is open to women of all experience levels. The goal of this league is to introduce women to the shooting sports in a safe, yet fun environment. Their training events include information on topics related to firearm safety, maintenance, range gear, holster basics and skills, marksmanship skills for speed, accuracy, and competitive shooting. They also hold lectures on situational awareness & training on less lethal options for self-protection and much more. For more information about the league please visit www.okcgunclub.org/ladies-pistol-league.html

In 2022, the Ladies Pistol League played an integral part in breaking a 31-year record with the Glock Sport Shooting Foundation (GSSF) for having the most women to ever participate in an outdoor GSSF match. The league trained, and recruited women from all over the US. By the time it was all said and done, they had 55 women in the Glock Girls division. Since that time, Jamie Meyer, the Director of the Ladies Pistol League, has become the Match Director for the OK State GSSF Match (Red Dirt Shootout) that is hosted at the club each year in October. For more information about the Red Dirt Shootout, please email Jamie at oklahomaguntraining@yahoo.com or visit www.oklahomaguntraining.com/red-dirt-shootout-2023

RETIRED LAW ENFORCEMENT OFFICER SAFETY ACT (LEOSA) FIREARMS QUALIFICATIONS

HR 218/Law Enforcement Officers Safety Act (LEOSA) provides for qualified retired law enforcement officers (LEO) to carry concealed firearms provided they meet the standards for firearms training every 12 months. The Training Division has several certified CLEET firearms instructors who can conduct the firearms qualification. We do this as a community service for our retired Law Enforcement Officers. Contact the Training Division for further information.

TRAINING DIVISION RANGE

The Training Range is open to all Gun Club members to shoot .22 LR pistols and rifles. Always check the Gun Club calendar for scheduled events when the Training Range is in use.

Training Division Range - RULES

1. Read and obey range rules while using this range. You are responsible for knowing these rules! Contact a club official if you need clarification.
2. Safety is paramount in all activities conducted on this range.
   ALWAYS keep firearm pointed in a safe direction
   ALWAYS keep your finger off the trigger until you are ready to fire
   ALWAYS keep your firearm unloaded until ready to use
3. NEVER handle firearm while someone is downrange.
4. Eye and ear protection is **REQUIRED** when on or near this range.
5. This range is for .22 rimfire handguns and rifles only. DO NOT use centerfire handguns, centerfire rifles, or shotguns on this range except for approved and sanctioned events.
6. All shooting must be from an established firing line. DO NOT go forward of the concrete pad (into the grass) for shooting except for approved and sanctioned events.
7. All rounds must impact the rear earthen berm – DO NOT fire at the two side berms, the range floor, or over the rear berm.
8. When two or more people are using this range, one must act as the Range Safety Officer.
9. Any person at any time is authorized to declare "Cease Fire" for an actual or anticipated issue. Upon "Cease Fire", all firing is to stop immediately.
10. All firearms must remain unloaded with action open and reasonably visible when not in use.
11. DO NOT use explosives, explosive targets, armor piercing, incendiary, or tracers on this range.
12. DO NOT use makeshift targets placed on the ground – no cans, bottles, etc.
13. Members may bring their own targets/target frames and steel targets. (Steel targets must be 10 yards or more from the firing line). Targets need to be high enough that misses impact the rear berm.
14. DO NOT remove the club target stands from the range. Members should bring their own sticks and targets.
15. This is your club and volunteer-operated facility! Please put target stands back on concrete pad, clean up brass and trash after each use.

For questions or to report any issues contact the Training Division at training@okcgunclub.org

Location: Cowboy Action Range see map on page 5

MATCH TIMES

- Wild Bunch matches are held on the third Saturday of each EVEN month and each 5th Sunday. Be sure to check the OKC Gun Club event calendar for exact dates.
- Matches begin at 9:00 AM. Sign in at 8:00 AM.

INTRODUCTION

Wild Bunch Action Shooting is a fun and exciting shooting sport that combines action, speed, and accuracy, in which the entire family can participate and compete. Matches are hosted at the Cowboy Action Range each month. Wild Bunch Action Shooting offers the following categories. The two basic categories offered are Modern and Traditional. These two categories are open categories and can be shot by men and women. At the match director's discretion, all categories may be further divided into Ladies categories (Ladies categories are restricted to biological (at birth) females only), and Senior categories (Senior category is 65 years of age and older).

WILD BUNCH ACTION SHOOTING

Staged in the turn of the 20th century when the west was still wild, Wild Bunch Action Shooting is a 3-Gun shooting sport that utilizes classic firearms such as the .45 ACP 1911 pistol, lever-action rifles chambered in pistol calibers and any SASS legal shotgun. Typical rounds per stage are 21-28 pistol, 7-10 rifle, and 5-6 shotgun.

Currently, SASS-sanctioned Wild Bunch matches such as state, regional, national, and world championships have two shooting categories to choose from. The "Traditional" category utilizes an original-design M1911/M1911A1 pistol, and the participant must use a traditional one-handed grip. The "Modern" category utilizes either an original-design M1911/M1911A1 pistol or a modern-style 1911 pistol and the participant may use either a traditional one-handed or a modern two-handed grip.

Another entertaining part of Wild Bunch Action Shooting for many participants is costuming and choosing an alias. During match events, the typical attire worn by participants is that of early-20th century military, late-19th to early-20th century western (such as that worn in the film The Wild Bunch), Roosevelt's "Rough Riders", or Mexican period clothing. However, men's modern western attire such as boots, jeans, long-sleeve western shirts, and cowboy hats while women's western attire such as boots and jeans/dresses are also common. Alias' can vary widely. They can be based upon your style of dress, a character you're portraying, or even something personal to you such as a family name. The choices for costuming and alias' are endless!

WILD BUNCH ACTION SHOOTING DIVISION, continued

HOW TO GET STARTED

Considering trying Wild Bunch Action Shooting, but don't have all or any of the required firearms? That's okay! Don't buy anything! Contact Jere Korthanke (a.k.a. Roy's Creek Dan) or J.R. Hile (a.k.a. Flat Top Okie) prior to a scheduled monthly match, and he'll get you outfitted with everything you need to give it a try. That way, you're able to decide what category you would like to participate in, and what firearms you would choose to acquire for competition. Don't buy anything until you try ours.

INTRODUCTION

Wildfire presents unique challenges to our Club that typically do not apply to urban home homeowners and neighborhoods. For example, the Club has several buildings, fuel storage tank, limited water access, distant fire departments and in close proximity to significant wildland fuel loads. Sooner or later most rural inhabitants will be faced with an approaching wildfire. The Fire Plan provides suggested guidance on how to be prepared for wildfire while on the Club campus in a rural setting.

Wildfires can occur at any time of the year; however, most occur during the dormant season or during periods of drought when fuels are dry. Fuel conditions, fuel loading, fuel arrangement, topography and weather conditions all affect the severity of wildfires. Of these factors, fuel loading and fuel arrangement around structures and infrastructure can be changed or mitigated. There are no guarantees when facing a wildfire and not all methods listed in the Fire Plan can or will completely protect the Club from every wildfire scenario.

FIRST ACTION PLAN PRIORITIES

Conduct **Zone One (0-10 feet)** inspections and clearances

Non-combustible surface, no overhanging branches, no outdoor storage

Conduct **Zone Two (10-30 feet)** inspections and clearances

Controlled surface, tree density thinned, branches trimmed to ten feet up, no brush, no leaf litter, no saplings, no Cedar or Juniper, no combustible debris

Maintain Zone One and Two clearances

Maintained with conditional mowing, trimming as needed, remove dead branches and combustible debris, keep outdoor storage out of Zone One

Conduct Zone **Three (30-200 feet)** inspections and clearances

Remove all dead and down limbs, no dead trees, remove all Cedar and Juniper

General membership can help by picking up any wind-blown trash, depositing paper targets in covered trash cans, keeping the dumpster lids and side doors closed, properly discarding smoking materials, and volunteering for workdays.

INTRODUCTION

In December 1999, the Board of Directors of the Oklahoma City Gun Club unanimously approved the formation of Women's Division. Coincidently, during the same month, the NRA created the Women on Target (WOT) program aimed at providing opportunities for women in shooting. Together they formed a partnership in organizing the First Annual Women on Target Instructional Shooting Clinic on September 8, 2000. Grants were applied for and funded to the newly formed Women's Division by the NRA Foundation via the Heartland Friends of the NRA and the Women on Target program of the NRA.

Fifty-seven women attended the inaugural shoot in 2000 and registration in 2018 was over 600 registrants. As a result, Oklahoma City Gun Club has hosted the nation's largest instructional shooting clinic for women for the past 25 years. The WOT Instructional Shooting Clinic has continued to grow and be successful through the efforts of members of the Oklahoma City Gun Club, volunteers from the Oklahoma County Sheriff's Department, Oklahoma Highway Patrol, Midwest City Police Department, Oklahoma Department of Wildlife Conservation, and the Women's Division.

The Women's Division charter members are Suzi Rouse, Joann Burner, Susan Cusack, Sharon Conrady, Pam Green, Sandy Payne, Dawn Taylor, Diana Hannah, Kansas Conrady, and Suzanne Black. These ten women became NRA certified instructors in pistol, shotgun, rifle and range officer disciplines through funding and support of the WOT program. Their backgrounds varied from a homemaker to a FBI Agent. They all had one focus and that was to provide an opportunity to share various shooting sports and firearms safety to women who have an interest. The current members of the women's division include the ladies listed above, in addition to Paula Tate, Jana Butcher, Cathy Canary, Tina White, Jackie Legg, Julie Rutledge, Carey Pribil, Marilyn Dye, Tracey McKey, and many other ladies who donate their time and expertise.

We have women that come from all over Oklahoma and as far away as Texas, Arkansas, Kansas, Nebraska, California, and Florida. Women from all walks of life participate in this event and we encourage anyone who has an interest in participating to sign up for a fun filled day of firearms safety and actual range time with a 22 rifle, various calibers of pistols, 20 gauge shotguns and AR-15 rifles. Companies such as Benelli, Glock, Smith & Wesson, DPMS, Inc., Ceasar Guerini, Blaser USA, Federal Premium Ammunition, along with Cabelas sponsor this event and provide firearms for the day. The WOT Women's Fun Shoot is always the first Saturday after Labor Day. Early registration is strongly recommended, as this event is extremely popular and fills up quickly. Visit www.OKCgunclub.org for more information.

INTRODUCTION

The Oklahoma City Gun Club Youth Divisions main focus is to give youth an opportunity to experience the fun and excitement of shooting sports. Youth are offered the opportunities to shoot in a safe and comfortable environment. This club is open to any youth living in and/or attending school in Oklahoma County.

OKLAHOMA COUNTY 4-H SHOOTING SPORTS

Oklahoma City Gun Club is a proud supporter of the 4-H shooting sports program. This program is a youth development program whose main focus is developing capable and responsible youth and is open to any youth living in and/or attending school in Oklahoma County. Safety is the primary focus of the shooting sports club. Currently the following disciplines are offered through the Oklahoma County 4-H Shooting Sports club:

- Shotgun

Youth range in age from 10 to 18. The Oklahoma City Gun Club is allowing these youth to use the excellent shooting facilities available to practice for their 4-H shooting competitions. This club is open to any youth living in Oklahoma County. Youth do not need to have any prior shooting experience. There are currently five certified coaches working with the youth.

YOUTH HUNTER EDUCATION CHALLENGE (YHEC)

Recognized as the most comprehensive youth hunting program anywhere in North America, the Youth Hunter Education Challenge (YHEC) is NRA's "graduate studies" program in outdoor skills and safety training for young hunters. Open only to those who have completed hunter-safety training at the state or provincial level, the program is conducted under simulated hunting conditions to provide the best practical environment for reinforcing and testing a young hunter's skills. From rifle, bow and muzzleloader shooting at life-sized targets, to wildlife identification, to map-and-compass orienteering and more, YHEC participants get hands-on training in eight skills areas, giving them expertise in all methods of take and all types of game. Visit our GALLERY to see photos and definitions for the eight skills.

- Muzzleloader
- Shotgun
- .22 Rifle
- Archery
- Wildlife ID
- Orienteering
- Hunter Safety Trail
- Hunter Responsibility Exam

State - and provincial - level YHEC programs, hosted by volunteer instructors, draw an estimated 50,000 youths each year. Top ranked individuals advance to the annual NRA International Youth Hunter Education Challenge, the pinnacle of the program. Since its inception in 1985, YHEC has reached more than a million young sportsmen and women. Follow the Youth Hunter Education Challenge at www.YHEC.org.
